

School of the Arts and Architecture General Education Requirements

For Students Who Entered Fall Quarter 2004 and Thereafter

Updated July 2009

Refer to the GE search in the *Schedule of Classes* for the most current GE listings.

In addition to general education requirements, students must complete the following school requirements: Writing I and II, quantitative reasoning, foreign language, 12 units of upper division nonmajor coursework, and diversity. Questions regarding school requirements should be directed to the Student Services Office, 2200 Broad Art Center, (310) 206-3564, students@arts.ucla.edu.

Foundations of Knowledge

General education courses are grouped into three foundational areas: Foundations of the Arts and Humanities, Foundations of Society and Culture, and Foundations of Scientific Inquiry.

Eight courses (38 units minimum) are required. A Writing II course also approved for general education may be applied toward the relevant GE foundational area.

Students who complete a yearlong GE Cluster series fulfill the Writing II requirement and complete nearly a third of their general education requirements. Students who do not complete the yearlong GE Cluster series must meet with a counselor in the Student Services Office to determine applicable GE credit.

Foundations of the Arts and Humanities

Three 5-unit courses, one from each subgroup. Courses required to satisfy the major or other courses taken in the major department may not be used to satisfy this GE requirement:

- Literary and Cultural Analysis
- Philosophical and Linguistic Analysis
- Visual and Performance Arts Analysis and Practice

Foundations of Society and Culture

Three 5-unit courses, one from each subgroup and one from either subgroup:

- Historical Analysis
- Social Analysis

Foundations of Scientific Inquiry

Two courses from either subgroup. If both courses are selected from the same subgroup, they must be from different departments:

- Life Sciences
- Physical Sciences

The following notations are used in the GE course lists:

(W) denotes a Writing II course

* Courses marked with an asterisk are listed in more than one category but can fulfill GE requirements in only one of the cross-listed categories

Foundations of the Arts and Humanities

The aim of courses in this area is to provide perspectives and intellectual skills necessary to comprehend and think critically about our situation in the world as human beings. In particular, the courses provide the basic means to appreciate and evaluate the ongoing efforts of humans to ex-

plain, translate, and transform their diverse experiences of the world through such media as language, literature, philosophical systems, images, sounds, and performances. The courses introduce students to the historical development and fundamental intellectual and ethical issues associated with the arts and humanities and may also investigate the complex relations between artistic and humanistic expression and other facets of society and culture.

All Foundation of the Arts and Humanities courses carry a minimum of 5 units.

Literary and Cultural Analysis

Afrikaans (Germanic Languages)

- 40. From Oppressed to Oppressor and Beyond: Literature in Afrikaans from Preapartheid to Postapartheid Era in English Translation

Ancient Near East (Near Eastern Languages)

- *10W. Jerusalem: Holy City **(W)**
- *130. Ancient Egyptian Religion

- 75. Modern Hebrew Literature Made into Films

Lesbian, Gay, Bisexual, and Transgender Studies

- *M114. Introduction to Lesbian, Gay, Bisexual, and Transgender Studies (Same as Women’s Studies M114)

Linguistics

- *M10. Structure of English Words (Same as English M40)

Music History (Musicology)

- *63. Bach
- *65. Blues in American Music

Near Eastern Languages

- *50A. First Civilizations
- *50B. Origins of Judaism, Christianity, and Islam
- 50C. Modern Middle Eastern Cultures

Philosophy

- *1. Beginnings of Western Philosophy
- *5. Philosophy in Literature

Portuguese (Spanish and Portuguese)

- 40B. Portuguese, Brazilian, and African Literature in Translation
- *46. Brazilian Culture and Civilization

Russian (Slavic Languages)

- 25. Russian Novel in Translation
- 25W. Russian Novel in Translation **(W)**
- *90A. Introduction to Russian Civilization
- 90BW. Russian Civilization in the 20th Century **(W)**

Scandinavian

- 50. Introduction to Scandinavian Literatures and Cultures
- 50W. Introduction to Scandinavian Literatures and Cultures **(W)**

Slavic (Slavic Languages)

- *90. Introduction to Slavic Civilization

South Asian (Asian Languages)

- *60. Religion in Classical India: Introduction

Southeast Asian Studies

*1. Introduction to Southeast Asian Studies

Women's Studies

*M114. Introduction to Lesbian, Gay, Bisexual, and Transgender Studies (Same as Lesbian, Gay, Bisexual, and Transgender Studies M114)

World Arts and Cultures

22. Introduction to American Folklore Studies

Philosophical and Linguistic Analysis

Ancient Near East (Near Eastern Languages)

*130. Ancient Egyptian Religion

Applied Linguistics

10W. Language in Action: Perspectives from Applied Linguistics (W)

30. Language and Social Interaction

*30W. Language and Social Interaction (W)

*40. Language and Gender: Introduction to Gender Differences and Stereotypes

*40W. Language and Gender: Introduction to Gender and Stereotypes (W)

80. Language in Globalizing World: Second Language Interaction in Everyday Life and Academia

80W. Language in Globalizing World: Second Language Interaction in Everyday Life and Academia (W)

*88GE. Sophomore Seminar: Special Topics in Applied Linguistics

101W. Introduction to Language Learning and Language Teaching (W)

Asian (Asian Languages)

M20. Visible Language: Study of Writing (Same as Indo-European Studies M20, Near Eastern Languages M20, Slavic M20, and Southeast Asian M20)

Chicana and Chicano Studies

*10A. Introduction to Chicana/Chicano Studies: History and Culture

Chinese (Asian Languages)

60. Introduction to Chinese Religions

Classics

*148. Early Greek Medicine and Thought

185. Origins and Nature of English Vocabulary

Communication Studies

M70. Origin of Language (Same as German M70 and Indo-European Studies M70)

English

*M40. Structure of English Words (Same as Linguistics M10)

English Composition

6W. Language, Culture, and Discourse (W)

German (Germanic Languages)

*56. Figures Who Changed World

*59. Holocaust in Film and Literature

M70. Origin of Language (Same as Communication Studies M70 and Indo-European Studies M70)

Honors Collegium

18. Trial of Socrates

*23. Political Dissidence Today and in Ancient Greece: Trial and Death of Socrates in Its Classical and Legal Context

38W. Body-Mind Literacy (W)

50W. Writing Science (W)

60. Discovering and Explaining Anomalies of English

Indo-European Studies

M20. Visible Language: Study of Writing (Same as Asian M20, Near Eastern Languages M20, Slavic M20, and Southeast Asian M20)

M70. Origin of Language (Same as Communication Studies M70 and German M70)

Islamic (Near Eastern Languages)

110. Introduction to Islam

Linguistics

*1. Introduction to Study of Language

2. Language in the U.S.

5. Languages of World

*M10. Structure of English Words (Same as English M40)

20. Introduction to Linguistics

Molecular, Cell, and Developmental Biology

60. Biomedical Ethics

Near Eastern Languages

M20. Visible Language: Study of Writing (Same as Asian M20, Indo-European Studies M20, Slavic M20, and Southeast Asian M20)

Philosophy

*1. Beginnings of Western Philosophy

3. Historical Introduction to Philosophy

4. Philosophical Analysis of Contemporary Moral Issues

*5. Philosophy in Literature

*6. Introduction to Political Philosophy

7. Introduction to Philosophy of Mind

*8. Introduction to Philosophy of Science

22. Introduction to Ethical Theory

22W. Introduction to Ethical Theory (W)

Portuguese (Spanish and Portuguese)

M35. Spanish, Portuguese, and Nature of Language (Same as Spanish M35)

Slavic (Slavic Languages)

Women's Studies

- M136. Music and Gender (Same as Music History M136)

World Arts and Cultures

- 47. World Dance Histories

Foundations of Society and Culture

The aim of courses in this area is to introduce students to the ways in which humans organize, structure, rationalize, and govern their diverse societies and cultures over time. The courses focus on a particular historical question, societal problem, or topic of political and economic concern in an effort to demonstrate how issues are objectified for study, how data is collected and analyzed, and how new understandings of social phenomena are achieved and evaluated.

All Foundation of Society and Culture courses carry a minimum of 5 units.

Historical Analysis

World Arts and Cultures

- M23. Introduction to American Indian Studies (Same as American Indian Studies M10)

Foundations of Scientific Inquiry

The aim of courses in this area is to ensure that students gain a fundamental understanding of how scientists formulate and answer questions about the operation of both the physical and biological world. The courses also deal with some of the most important issues, developments, and methodologies in contemporary science, addressing such topics as the origin of the universe, environmental degradation, and the decoding of the human genome. Through lectures, laboratory experiences, writing, and intensive discussions, students consider the important roles played by the laws of physics and chemistry in society, biology, Earth and environmental sciences, and astrophysics and cosmology.

Life Sciences

Anthropology

- 7. Human Evolution (5 units)
- 12. Principles of Human Evolution: Comparative Analysis (5 units)

Astronomy (Physics and Astronomy)

- *5. Life in Universe (4 units)

Earth and Space Sciences

- *3. Astrobiology (5 units)
- *15. Blue Planet: Introduction to Oceanography (5 units)
- 16. Major Events in History of Life (4 units)
- 17. Dinosaurs and Their Relatives (4 units)
- *20. Natural History of Southern California (5 units)

Ecology and Evolutionary Biology

- 10. Plants and Civilization (4 units)
- 11. Biomedical Research Issues in Minority Communities (5 units)
- 13. Evolution of Life (4 units)
- 17. Evolution for Everyone (5 units)
- 25. Marine Biology (5 units)

Geography

- 2. Biodiversity in a Changing World (5 units)
- *5. People and the Earth's Ecosystems (5 units)
- *7. Introduction to Geographic Information Systems
- *88GE. Seminar Sequence: Special Topics in Geography (5 units)

Honors Collegium

- 8. Communication among Organisms (4 units)
- 14. Interaction of Science and Society (4 units)
- 64. Neuroscience and Psychology of Art and Biology of Aesthetics (5 units)
- 70A. Genetic Engineering in Medicine, Agriculture, and Law (5 units)

Life Sciences

- 1. Evolution, Ecology, and Biodiversity (5 units)
- 2. Cells, Tissues, and Organs (5 units)
- 15. Life: Concepts and Issues (5 units)

Linguistics

- *1. Introduction to Study of Language (5 units)

Microbiology, Immunology, and Molecular Genetics

- 5. Science of Memory and Learning (4 units)
- 6. Microbiology for Nonmajors (4 units)
- 7. Developments in Biotechnology (4 units)
- 12. Biological Threats to Society: Bioterrorism and Emerging Infections (4 units)

Molecular, Cell, and Developmental Biology

- 40. AIDS and Other Sexually Transmitted Diseases (5 units)
- *50. Stem Cell Biology, Politics, and Ethics: Teasing Apart Issues (5 units)
- 80. Green World: Plant Biology for Now and Future (5 units)

Neuroscience

- 10. Brain Made Simple: Neuroscience for the 21st Century (4 units)

Physiological Science

- 3. Introduction to Human Physiology (5 units)
- 5. Issues in Human Physiology: Diet and Exercise (5 units)
- 13. Introduction to Human Anatomy (5 units)

Psychology

- 15. Introductory Psychobiology (4 units)

Society and Genetics

- 101. Genetic Concepts for Human Sciences (5 units)
- *102W. DNA: Promise and Peril (5 units) (W)

Statistics

- *10. Introduction to Statistical Reasoning (5 units)
- 13. Introduction to Statistical Methods for Life and Health Sciences (5 units)

Physical Sciences

Astronomy (Physics and Astronomy)

- 3. Nature of Universe (5 units)
- 4. Black Holes and Cosmic Catastrophes (4 units)
- *5. Life in Universe (4 units)
- 6. Cosmology: Our Changing Concepts of Universe (4 units)
- 7. Astronomy and Media (4 units)

Atmospheric and Oceanic Sciences

- 1. Climate Change: From Puzzles to Policy (4 units)
- 1L. Climate Change: From Puzzles to Policy — Laboratory (1 unit)
- 2. Air Pollution (4 units)
- 2L. Air Pollution Laboratory (1 unit)
- 3. Introduction to Atmospheric Environment (4 units)
- 3L. Introduction to Atmospheric Environment Laboratory (1 unit)
- 5. Climates of Other Worlds (4 units)

Chemistry and Biochemistry

- 2. Introductory Chemistry (4 units)

- 14A. Atomic and Molecular Structure, Equilibria, Acids, and Bases (4 units)
- 14B. Thermodynamics, Electrochemistry, Kinetics, and Organic Chemistry (4 units)
- 14BL. General and Organic Chemistry Laboratory I (3 units)
- 20A. Chemical Structure (4 units)
- 20AH. Chemical Structure (Honors) (4 units)
- 20B. Chemical Energetics and Change (4 units)
- 20BH. Chemical Energetics and Change (Honors) (4 units)
- 20L. General Chemistry Laboratory (3 units)

Earth and Space Sciences

- 1. Introduction to Earth Science (4 units)
- 1F. Earth Science with Fieldwork (5 units)
- *3. Astrobiology (5 units)
- 5. Environmental Geology of Los Angeles (4 units)
- 7. Perils of Space: Introduction to Space Weather (4 units)
- 8. Earthquakes (5 units)
- 9. Solar System and Planets (4 units)
- 10. Exploring Mars, Red Planet (4 units)
- 13. Natural Disasters (5 units)
- *15. Blue Planet: Introduction to Oceanography (5 units)
- *20. Natural History of Southern California (5 units)

Geography

- 1. Earth's Physical Environment (5 units)
- *5. People and the Earth's Ecosystems (5 units)
- *7. Introduction to Geographic Information Systems (5 units)
- *88GE. Seminar Sequence: Special Topics in Geography (5 units)

Honors Collegium

- *20. What Is This Thing Called Science?: Nature of Modern Science (5 units)
- 28. Perils of Living in Space: Introduction to Space Weather (5 units)

Human Complex Systems

- *10A. Introduction to Complex Systems Science (5 units)

Philosophy

- *8. Introduction to Philosophy of Science (5 units)

Physics (Physics and Astronomy)

- 1A. Physics for Scientists and Engineers: Mechanics (5 units)
- 1AH. Physics for Scientists and Engineers: Mechanics (Honors) (5 units)
- 1B. Physics for Scientists and Engineers: Oscillations, Waves, Electric and Magnetic Fields (5 units)
- 1BH. Physics for Scientists and Engineers: Oscillations, Waves, Electric and Magnetic Fields (Honors) (5 units)
- 1C. Physics for Scientists and Engineers: Electrodynamics, Optics, and Special Relativity (5 units)
- 1CH. Physics for Scientists and Engineers: Electrodynamics, Optics, and Special Relativity (Honors) (5 units)
- 6A. Physics for Life Sciences Majors: Mechanics (5 units)
- 6AH. Physics for Life Sciences Majors: Statics and Dynamics (Honors) (5 units)
- 6B. Physics for Life Sciences Majors: Waves, Electricity, and Magnetism (5 units)
- 6BH. Physics for Life Sciences Majors: Sound, Light, and Hydrodynamics (Honors) (5 units)
- 6C. Physics for Life Sciences Majors: Light, Fluids, Thermodynamics, Modern Physics (5 units)
- 6CH. Physics for Life Sciences Majors: Electricity, Magnetism, and Transport (Honors) (5 units)
- 10. Physics (4 units)

Statistics

- *10. Introduction to Statistical Reasoning (5 units)

Freshman General Education Cluster Program

The Freshman General Education Cluster program is a curricular initiative designed to strengthen the intellectual skills of entering freshmen by introducing them to faculty research and exposing them to the best practices in teaching such as seminars and interdisciplinary study. Clusters are yearlong, collaboratively taught, interdisciplinary courses that focus on a topic of timely importance, such as the global environment or interracial dynamics. The courses are taught by some of UCLA's most distinguished faculty members and seasoned graduate students and are open only to entering freshmen. During Fall and Winter Quarters, students attend lecture courses and small discussion sections and/or laboratories. In Spring Quarter, the same students enroll in one of a number of satellite seminars dealing with topics related to the cluster theme. See <http://www.college.ucla.edu/ge/clusters/>.

Students who complete a yearlong GE Cluster series fulfill the Writing II requirement and complete nearly a third of their general education requirements. Students who do not complete the yearlong GE Cluster series must meet with a counselor in the Student Services Office to determine applicable GE credit.

General Education Clusters

M1A-M1B-M1CW. Global Environment (Same as Environment M1A-M1B-M1CW)

- One course in Foundations of Scientific Inquiry – Life Sciences
- One course in Foundations of Scientific Inquiry – Physical Sciences
- One course in Foundations of Society and Culture – Social Analysis

20A-20B-20CW. Interracial Dynamics in American Culture and Society

- One course in Foundations of the Arts and Humanities – Literary and Cultural Analysis
- One course in Foundations of Society and Culture – Historical Analysis
- One course in Foundations of Society and Culture – Social Analysis

21A-21B-21CW. History of Modern Thought

- One course in Foundations of the Arts and Humanities – Philosophical and Linguistic Analysis
- One course in Foundations of Society and Culture – Historical Analysis
- One course in Foundations of Society and Culture – Social Analysis

22A-22B-22CW. Toward World Economy: Perils and Promise of Globalization

- One course in Foundations of the Arts and Humanities – Literary and Cultural Analysis
- One course in Foundations of Society and Culture – Historical Analysis
- One course in Foundations of Society and Culture – Social Analysis

23A-23B-23CW. Inside Performing Arts: Interdisciplinary Explorations of Performance in Society and Culture

- One course in Foundations of the Arts and Humanities – Literary and Cultural Analysis
- One course in Foundations of the Arts and Humanities – Visual and Performance Arts Analysis and Practice
- One course in Foundations of Society and Culture – Historical Analysis

M24A-M24B-M24CW. Work, Labor, and Social Justice in U.S. (Same as Labor and Workplace Studies M1A-M1B-M1C)

- One course in Foundations of the Arts and Humanities – Literary and Cultural Analysis
- One course in Foundations of Society and Culture – Historical Analysis
- One course in Foundations of Society and Culture – Social Analysis

25A-25B-25CW. Politics, Society, and Urban Culture in East Asia

- One course in Foundations of the Arts and Humanities – Literary and Cultural Analysis
- One course in Foundations of Society and Culture – Historical Analysis
- One course in Foundations of Society and Culture – Social Analysis

30A-30B-30CW. Never-Ending Stories: Multidisciplinary Perspectives on Myth

- One course in Foundations of the Arts and Humanities – Literary and Cultural Analysis
- One course in Foundations of the Arts and Humanities – Philosophical and Linguistic Analysis
- One course in Foundations of Society and Culture – Social Analysis

60A-60B-60CW. America in Sixties: Politics, Society, and Culture, 1954 to 1974

- One course in Foundations of the Arts and Humanities – Literary and Cultural Analysis
- One course in Foundations of the Arts and Humanities – Visual and Performance Arts Analysis and Practice
- One course in Foundations of Society and Culture – Social Analysis

66A-66B-66CW. Los Angeles: The Cluster

- One course in Foundations of the Arts and Humanities – Literary and Cultural Analysis
- One course in Foundations of Society and Culture – Historical Analysis
- One course in Foundations of Society and Culture – Social Analysis

70A-70B-70CW/70DW. Evolution of Cosmos and Life

- One course in Foundations of Scientific Inquiry – Life Sciences
- One course in Foundations of Scientific Inquiry – Physical Sciences
- One course in Foundations of Scientific Inquiry – Life Sciences or Physical Sciences (depends on the seminar chosen)

Note: Students are required to complete two courses from the Foundations of Scientific Inquiry. The third science course of this cluster series may be applied toward the Writing II requirement or toward the total graduation units.

71A-71B-71CW. Biotechnology and Society

- One course in Foundations of the Arts and Humanities – Philosophical and Linguistic Analysis
- One course in Foundations of Scientific Inquiry – Life Sciences
- One course in Foundations of Scientific Inquiry – Life Sciences

72A-72B-72CW. Sex from Biology to Gendered Society

- One course in Foundations of Scientific Inquiry – Life Sciences
- Two courses in Foundations of Society and Culture – Social Analysis

80A-80B-80CW. Frontiers in Human Aging: Biomedical, Social, and Policy Perspectives

- One course in Foundations of Scientific Inquiry – Life Sciences
- Two courses in Foundations of Society and Culture – Social Analysis
