CIRCULAR FOR 1893–94.

The Trustees of the California State Normal School at Los Angeles herewith present the Catalogue of the School for the school year ending June 30, 1893, with the course of study, rules and regulations, etc., for the coming year.

This closes the eleventh year of the school. It is completely organized, with a competent corps of instructors. The building is very perfect in its appointments; there is apparatus enough for present needs; and there is a well-selected and growing library of two thousand nine hundred volumes, which fairly meets the requirements of daily work.

The school is quite well and favorably known, its standing being due to the work of its classes already sent out into the counties of the southern portion of the State.

The museum has been largely added to, and is now fairly representative of Southern California. It is an active ally of much of the scientific work of the school.

The gymnasium has been constantly used, and its work thoroughly tested the past three years. It is found to be decidedly beneficial to the health, and thus to the study power of the students.

For a fuller statement of school work we call attention to the body of the Catalogue, and to the report of the Principal of the school.

PRINCIPAL'S REPORT.

To the Board of Trustees of the State Normal School at Los Angeles:

GENTLEMEN: The eleventh year of the State Normal School under your charge has been, like its predecessors, a prosperous year. The numbers are essentially the same as last year. We commenced the year with 330 in attendance, and, receiving no class during the year, closed with an attendance of 310, in a building intended to accommodate 272. The Model or Practice School, of three rooms, has kept constantly full during the year.

The $75,000 asked by your Board for the construction of a new building was readily granted by the last Legislature, its necessity being seen by all. This places the school upon an excellent basis for good work, and there seems no bar to its progress for many years to come.

We present at this time a class of 88, who, having completed in full the course of study and practice teaching prescribed by the Joint Board of Trustees, are fitted to receive the Normal School Diploma of the
STATE NORMAL SCHOOL, LOS ANGELES.

State. This makes 534 graduates of the school, all of whom obtained places, and nearly all are now teaching in the southern part of the State.

In taking leave of the profession of teaching, and of this school after ten years' service in it, I do so with a feeling of profound gratitude: to this people, who have sustained us so long and so well; to this Normal Board, who, with singleness of purpose, have always in their action sought the good of the school and not the suberving of private interests; and to this corps of teachers, who have worked efficiently, faithfully, and in singular harmony for the same good purpose. And I feel sure that so long as Southern California needs well-instructed teachers, so long will this school flourish, and stand in the forefront of institutions whose design is to supply this need.

Very respectfully submitted,

IRA MORE,
Principal.

CONDITIONS OF ADMISSION AND GRADUATION.

For admission to the Junior Class, the following qualifications are requisite:

1. Must be sixteen years of age.

2. Hold a valid teacher's certificate of any grade from any county or city in California; or,

3. Hold a diploma of graduation from a California High School, a county grammar grade diploma, when it represents nine years of school work, or a certificate of promotion from the ninth year of California city schools; provided, that the applicant presents a letter of recommendation from the City Superintendent, or, in case of cities having no Superintendent, from the Principal of the school granting the certificate.

4. Applicants presenting High School diplomas of graduation, or first grade teachers' certificates granted in States other than California, may be admitted at the discretion of the Faculty.

5. Applicants may also be admitted on examination. They must pass an examination in Spelling, Reading, Geography, Arithmetic, and Grammar. Pupils from the public schools are not admitted until they have finished the prescribed ninth grade studies. Those from other schools must show by their examinations that they have completed an equivalent of the public ninth grade school work. All new pupils may be examined for classification, and if admitted to advanced classes, must have passed creditably in all the studies of the preceding classes.

6. Every one admitted to the school must present a certificate of good moral character, signed by the County Superintendent of Schools, or by two of the School Trustees, or by any two reputable and permanent residents of the district from which such pupil comes.

Pupils are admitted on the first Tuesday in September, at which time the new class for the year is formed. Examinations for admission will also be held at the beginning of each of the other terms, in January and
April, but only such applicants will be admitted as are found to be sufficiently advanced to enter the class which started at the beginning of the year, in September. Admissions do not take place during the term.

Experience has shown that those make the best teachers who enter the early part of the course. The elementary work of the Junior year is more needed than the higher work of the following years.

For this reason it is better that the student should enter at the commencement of the year, when the new class is formed, than that he should wait and attempt to enter a class which has already gone over some portion of the year's work. Very few are entered on the course beyond the commencement of the Middle year.

To graduate, one must be at least eighteen years old; must have been not less than one year in the school; must have passed creditably in all the studies of the prescribed course, and must have shown, by actual and continued teaching in the Practice School, an ability and fitness for governing and teaching well.

The law contemplates the issuance of three diplomas by the Normal Schools: a full diploma upon the completion of the three years' course of study and discipline; an elementary diploma upon the completion of such portion of said course as may be prescribed by the Board, and a professional diploma upon the completion of a Post Graduate course. But few elementary diplomas have been granted, and the practice has, for some years, been discontinued; the full or grammar grade diploma is given upon the completion of the three years' course of study. Previous to 1880 first grade State certificates were granted upon this; and since the granting of certificates has been taken from the State Board, and given entirely to County Boards of Education, nearly all the counties of the State grant certificates upon this diploma.

The Post Graduate course was established in 1889, and for two years we had classes in this school; but the Legislature abolished the Grammar School Course Schools. The Joint Board of State Normal School Trustees therefore discontinued the Post Graduate course. Applicants for admission are required to make and sign the following declaration:

"I hereby declare that my purpose in entering the school is to fit myself for teaching, and that I intend to teach in the public schools of California."

A deposit fee of five dollars is made with the school, to be refunded on leaving, if all library books have been returned, and if there are no charges for injury to reference books, buildings, or furniture.

Our object is to train students for the work of teaching in the public schools of the State. A course in the Normal School is not a ready nor an easy way to obtain a certificate to teach. For those who wish to prepare for the teachers' examination, this is no place, and any who come for that purpose are likely to be disappointed. We are always glad to welcome teachers who, in the vacations of their own schools, find some leisure to attend the Normal, to see its methods, examine its work, and perhaps gain something which may be of use to them in their own work. They may join any class, being either observers or workers, as they may choose, and remain with us just so long as their leisure shall serve.
GENERAL INFORMATION.

VISITORS.

People wishing to visit the school are welcome at all times, and in any room of the building. It is never an interruption, but rather a benefit to the school to have strangers present, and we desire to show our appreciation of the interest taken in us by extending every possible courtesy to those who come to see our work. And if at any time a lack of attention should be noted, we hope the visitor will attribute it to the true cause—the preoccupation of very busy people.

MODEL AND PRACTICE SCHOOL.

The Practice School consists of four grades of the Los Angeles public schools, under the charge of regular teachers, thus giving opportunity to the Senior Class in the Normal to apply practically the instruction they have received in methods of teaching and governing. No one is graduated until he has shown to the satisfaction of the Faculty of the Normal School his ability to do thoroughly the work of the public schools.

EXPENSES, ETC.

Tuition is free. Board in private families can be had at from sixteen to twenty dollars per month. All needful stationery for school uses is furnished by the school. The student furnishes his own text-books, and is at a slight expense for materials used in chemical experiments.

Before securing boarding places, pupils must consult with the Principal or Preceptress, and they will be permitted to board only in families approved by the Faculty. This applies also to changing boarding places during the term. Experience has shown that it is never best to allow young gentlemen and ladies to board in the same family.

Those who enter the Normal Schools are not usually burdened with wealth. We have with us, not the rich nor the very poor, but people who must economize strictly in the matter of expenditure, that it may be kept safely within the income; hence it is that the Faculty, carrying out the wishes of the Trustees, inculcate simplicity and economy; presents to teachers are never made, and costly clothing with needlessly lavish display at graduation, is discouraged.

EXAMINATIONS FOR ADMISSION.

Examinations for admission begin on Tuesday, September 9, 1893, and on Tuesday, January 9, 1894, and on Tuesday, April 10, 1894. The last two admissions are to advanced classes only.

Candidates for admission to any of the classes must be in attendance
the first day. Only in very exceptional cases will any examination be
held after the opening of the term.

MUSEUM.

The collections for this are being made and arranged in the cases,
steadily though rather slowly. In birds, minerals, and plants the present
collection furnishes enough for illustrative purposes of the class work in
these subjects. California is deficient in the older fossils, but these can
largely be obtained by exchanges. We hope to increase the collections
in geology and entomology rapidly, and invite Eastern collectors of fos-
sils, especially of Silurian, Devonian, and Carboniferous, to correspond
in reference to exchanges for our minerals.

It is desired to make this collection a representative one of Southern
California, and we take this opportunity of asking mining men and
others to send us boxes of specimens by freight, leaving us to pay the
freight charges, and we shall take pleasure in making the proper exhibit
of their mineral wealth in our cases.

The new museum-room has been nicely fitted up, affording abundant
space for the large collection which can so readily be made on this coast.

APPARATUS.

The school is now supplied with most of the apparatus needed for
illustrating the branches of study pursued.

Each student in botany and zoology is furnished by the school with a
satisfactory microscope for class work.

A solar microscope for class work, and a binocular for more minute
examination of objects, are included in the collection, and are very satis-
factory instruments. A good five-inch telescope has been added, for
special work.

ADVICE TO THOSE WHO WISH TO ENTER THE SCHOOL.

1. Carefully examine the course of study, and decide how much of it
you have thoroughly accomplished, recognizing always the difference
between the knowledge required by a teacher, and by one who is merely
expecting to become a general scholar.

2. Do not be too anxious to enter advanced classes. There will be no
time in any class, especially the Senior Class, to make up back studies.
Many who are admitted to the advanced classes fail to do the work well,
from lack of elementary training, and regret not having begun to work
here in lower grades.

3. Bring with you a statement of good moral character, signed by two
of the School Trustees, or other resident citizens of your district.

4. Text or reference books which you may have will be useful here,
and should be brought with you.

5. Come expecting to work faithfully and honestly; to make study
your first and only aim while here; prepare to make any sacrifice for
your own good and the good of the school.

If you cannot come with this spirit, or if you lack the determination
to carry you through in this spirit, you will make a mistake in entering a Normal School.

**DISCIPLINE.**

In a Normal School there should be no need of referring to the matter of discipline. Only those should come, or be admitted, who have well-formed, correct habits. This is, in no sense, a reform school, and young gentlemen or young ladies who are not disposed to submit willingly and cheerfully to all the wholesome restraints found necessary for the good working and good reputation of the school, will be unhesitatingly dismissed.

We are, in a measure, responsible to the State for the character and requirements of each pupil graduated from the school. This being the case, we are compelled to exercise the most rigid scrutiny in reference to both these; and offenses that in a mere academic institution might be passed over lightly, here are viewed rather as indicating the unfitness of the offender for taking charge of and training the children of the State. In this way it sometimes happens that pupils are advised to withdraw from the school, or are even dismissed, when no very serious charges are brought against them; they have merely convinced us that they are not suitable persons to enter the profession of teaching.

No publicity is given to such cases, except when it becomes necessary to protect the school from false accusations. Nor is our action ever taken with a view of punishing the offenders. They are simply permitted to go to schools where they or their parents can pay for the work of discipline. The State can afford to educate for teachers only those above the need of such work.

**GENERAL REMARKS.**

It is to be hoped that County Superintendents, and other friends of the State Normal School, may be ready to advise those who are earnestly striving to make themselves good teachers, to enter some of the departments of the school. It may also, in all kindness, be suggested that none be recommended who are not physically, mentally, and morally fitted for the profession. The fact that a candidate has failed at an examination is, alone, hardly evidence that he should come to the Normal School. While it is our aim, by faithful effort, to fit our pupils for the work of teaching, even here we cannot work miracles, and there are those of whom no amount of instruction, and no thoroughness of training, can make good teachers.

**RULES AND REGULATIONS.**

Those who are fitting for teachers should begin, on their entrance to the school, the formation of those habits on which so much of the teacher's success depends. None are admitted to the school except those who pledge an intention to become teachers.

**PUNCTUALITY.**

Sickness constitutes almost the only valid excuse for absence. The pupil who allows trivial or ordinary matters to prevent his prompt attendance upon the exercises of the school and of the particular class
to which he has been assigned, shows in this an unfitness for the duties of a teacher that should, and soon does, end his connection with the school. The Principal, only, grants excuses for absence or tardiness, and should be consulted before the absence occurs, if possible.

PROMOTIONS.

Those only who do the work of the class creditably, and show an ability to continue, will be promoted with the class. No student is allowed to pass over the work of any term more than twice. If promotion is not then secured the evidence of unfitness is sufficient. Examinations are made and the work summed up at the end of each term or oftener, and any student found standing at the head of his class, and showing an ability to do more work, is carried forward to the next class. One should seek to enter a class below rather than above his ability.

BOARDERS AND BOARDING.

The Board of Trustees of the school have adopted the following regulations, which the Faculty of the school are required to see fully observed:

All pupils attending any department of the school, who do not board and room with their parents or legal guardians, and who are not under the immediate charge of parents or such guardians, shall be considered as boarders, and shall be subject to the following rules:

1. Pupils must consult the Principal or Preceptress before selecting boarding places. This applies to all, whether they have been in the school before or are new pupils.

2. Pupils must board at places indorsed by the Principal and Preceptress.

3. Ladies and gentlemen shall not be allowed to board in the same house. This rule shall apply equally when the house is occupied by two or more families.

4. Permission must in every case be obtained from the teacher in charge, when pupils desire to board in families where boarders are taken who are not connected with the school. It is not expected that permissions will be asked which conflict with the preceding regulation.

5. Brothers and sisters shall be allowed to board in the same house, provided no other boarders are received into the house.

6. Pupils must consult the teacher in charge before changing boarding places.

7. Boarders shall not be absent from their boarding places in the evening without permission from the teacher in charge. If compelled by unforeseen causes to be absent at the time named, without obtaining such permission, they must, before leaving, inform the people with whom they board or room, where they are going and when they shall return. Such absence must be reported to the teacher in charge at the earliest opportunity. Permission to attend suitable places at suitable times will always be granted to pupils who are doing well in their studies, but school and its requirements must be first.
8. Pupils may receive calls on Friday evenings, from 6 to 9 o'clock, or before study hours of other days of the week.

9. It shall be the duty of the Principal and the teachers in charge to satisfy themselves that all parties who either keep boarders, or rent rooms to self-boarders, exercise such supervision over such pupils as will secure a compliance with the spirit and intention of the rules of the school. Pupils shall not be allowed to continue to board where such supervision is not maintained, or where the requirements of the school are in any way disregarded.

10. All boarders are required to present semi-monthly reports of conduct, signed by the parties with whom they board or room.

STUDY HOURS.

Study hours are defined to be from 7 to 9:30 P. M. of all week days except Friday.

Most pupils, in order to retain their places in their classes, will require more than the time above stated. Such additional time should be taken in the morning or the afternoon, but so as to leave time for recreation and exercise in the daytime and in the open air.

Pupils living with their parents or guardians will find it advantageous to observe these rules; but the school requires only that they do the work of their several classes, and so conduct themselves as not to bring the school into disrepute.

PERSONAL MATTERS.

Enroll yourself with your name as it should appear upon the books and in the catalogue of the school, and retain that name in all your classes and upon all your papers.

Keep your people at home well informed as to the street and number of your Los Angeles residence, and have all telegrams and express packages directed so as to reach you there.

Should your parents or guardians change their residence while you are here, have the change at once noted upon the records of the school, that we may be able to communicate with them at once, in case of accident, sickness, or other emergency.

Have your letters directed in care of the Normal School, and they will be safely and regularly delivered to you twice every day.

Regular bodily exercise is essential to health. For this the new gymnasium partially provides, giving you as it does each day an exercise carefully adapted to your strength. Besides this you need at least an hour in the open air, devoted to the development of the muscles, whose health goes far to insure a healthy and vigorous brain.

If in any matter you need sympathy or advice, do not fail to apply to your teachers, who are certain to bring to the subject a larger experience than you can command, and to aid you to the full extent of their power.
