ANNOUNCEMENT
OF THE
SOUTHERN BRANCH
FOR THE
ACADEMIC YEAR 1921-22

JULY, 1921

PUBLISHED BY THE
UNIVERSITY OF CALIFORNIA
SOUTHERN BRANCH
LOS ANGELES, CALIFORNIA
For Sale at the Students' Book Stores,
Berkeley and Los Angeles
PRICE, 10 CENTS
CIRCULARS OF INFORMATION

For the Announcement of the Southern Branch of the University of California address the Recorder, Southern Branch, University of California, Los Angeles, California. Price 10 cents; by mail 15 cents.

Letters of inquiry concerning the College of Agriculture should be addressed to the Dean of the College of Agriculture, Berkeley, California.

For the following circulars of information concerning the several colleges and departments of the University apply to the Mailing Division, President's Office, University of California, Berkeley, California.

The Circular of Information, Academic Departments (Colleges of Letters and Science, Agriculture, Commerce, and Engineering, and the first two years of Medicine). Containing general information about the University, its organization, government, requirements for admission to undergraduate status, requirements for degrees, and expenses. Price, 10 cents. Sent by mail by the Mailing Division, President's Office, for 15 cents. Detailed information is given in the other publications mentioned in this list.

The Annual Announcement of Courses of Instruction in the Academic Departments. Price, 25 cents. Sent by mail by the Mailing Division, President's Office, for 30 cents.

The Announcement of the Graduate Division.

The Annual Commencement Programme. Containing the list of degrees conferred, scholarships, prizes, and other honors.

Specimen entrance examination papers.

The Annual Announcement of the School of Education.

The Annual Announcement of the School of Jurisprudence.

The Announcements of the Summer Sessions, Berkeley and Los Angeles. Published annually in April.

The Catalogue of Officers and Students. Published in September and in February. Price, 25 cents. Sent by mail by the Mailing Division, President's Office, for 28 cents.

The Monthly Meteorological Synopsis of Berkeley.

The Annual Register. Sent by mail by the Mailing Division, President's Office, for 25 cents.

For the Annual Report of the President, apply to the Manager of the University of California Press, at Berkeley.

(Continued on third page of cover)
ANNOUNCEMENT
OF THE
SOUTHERN BRANCH
FOR THE
ACADEMIC YEAR 1921-22
Letters of inquiry concerning the University in general should be addressed to the Recorder of the Faculties, Berkeley, California.

Letters of inquiry concerning the Southern Branch should be addressed to the Recorder, Southern Branch of the University of California, Los Angeles, California.

For the list of bulletins of information concerning the several colleges and departments see page 2 of the cover.

In writing for information please mention the college, department, or study in which you are chiefly interested.

Announcement of the Southern Branch

CALENDAR, 1921–1922

1921

September 8, Thursday
September 10, Saturday Registration of new students.
September 12, Monday—Registration of old students.
September 13, Tuesday—Instruction begins at 8 a.m.

November 24, Thursday
November 26, Saturday Thanksgiving recess.

December 22, Thursday
December 31, Saturday Christmas recess.

1922

January 14, Saturday—Semester closes.
January 23, Monday—Registration of students for the second half-year.
March 27, Monday Spring vacation.
April 1, Saturday Alumni Day.
May 27, Saturday—Alumni Day.
June 10, Saturday—Semester closes.

June 26, Monday Summer sessions of the Academic Colleges in Los Angeles and Berkeley.
August 5, Saturday
REGENTS OF THE UNIVERSITY

NOTE.—The regular meetings of the Regents are held at 2 p.m. on the second Tuesday of each month, except July, and on the day before Commencement, at such places as may from time to time be determined, ordinarily at the California School of Fine Arts, California and Mason streets, San Francisco. The Los Angeles office of the Regents is in Room 521, Pacific Finance Building, Los Angeles.

REGENTS EX OFFICIO

His Excellency William D. Stephens
Governor of California and President
of the Regents
Sacramento

Clement Calhoun Young, B.L.
Lieutenant-Governor of California
Sacramento (276 Post st, San Francisco)

Henry W. Wright
Speaker of the Assembly
1009 Fair Oaks av, South Pasadena

Will C. Wood
State Superintendent of Public Instruction
Sacramento

H. A. Jastro
President of the State Agricultural Society
Bakersfield

Byron Mausy
President of the Mechanics' Institute
250 Stockton st, San Francisco

Warren Gregory, A.B., LL.B.
President of the Alumni Association Merchants Exchange bldg, San Francisco

David Prescott Barrows, Ph.D., LL.D.
President of the University
217 California Hall, Berkeley

APPOINTED REGENTS

The term of the appointed Regents is sixteen years, and terms expire March 1 of the year indicated in parentheses. The names are arranged in the order of original accession to the Board.

Southern Pacific bldg, San Francisco

Garrett William McIntuney (1928)
2002 Hobart bldg, San Francisco

14 Sansome st, San Francisco

Charles Stetson Wheeler, B.L. (1928)
Nevada Bank bldg, San Francisco

John Alexander Britton (1980)
445 Sutter st, San Francisco

Rudolph Julius Taussig (1922)
1521 Van Ness av, San Francisco

William Henry Crocker, Ph.B. (1924)
Crocker National Bank, San Francisco

Philip Ernest Bowles, Ph.B. (1922)
American National Bank, San Francisco

James Kennedy Moffitt, B.S. (1924)
First National Bank, San Francisco

Charles Adolph Hamm, B.S., M.A., S.T.B. (1928)
1100 Franklin st, San Francisco

Edward Augustus Dickson, B.L. (1926)
510 Lucerne blvd, Los Angeles

James Mills (1926)
Hamilton City

Chester Harvey Bowell, Ph.B. (1926)
Fresno

Mortimer Fleishhacker (1924)
Anglo-California Trust Company, San Francisco

George I. Cochran, LL.D. (1920)
501 West Sixth st, Los Angeles

Mrs. Margaret Santori (1922)
725 West Twenty-eighth st, Los Angeles
Announcement of the Southern Branch

OFFICERS OF THE REGENTS

His Excellency William Dennison
Stephens
President
Sacramento

Robert Gordon Sproul, B.S.
Comptroller, Secretary of Regents, and
Land Agent
220 California Hall, Berkeley

Mortimer Fleishhacker,
Treasurer
Anglo-California Trust Company, San
Francisco

James M. Mannon, Jr., LL.B.
Attorney
1107 Merchants Exchange bldg, San
Francisco

STANDING COMMITTEES OF THE BOARD OF REGENTS
FOR THE YEAR 1921-22*

Agriculture:
Regents Foster, Jastro, Dickson, Mills,
Cochran, and Earl.

Committee on Conference with Faculty:
Regents Moffitt, Gregory, Taussig,
Rowell, and Ramm.

Committee on Educational Relations:
Regents Wood, Dickson, Rowell,
Ramm, and Earl.

Endowment:
Regents Crocker, Britton, Mrs. Sar-
tori, Bowles, Cochran, McEnerney,
and Fleishhacker.

Engineering:
Regents Ramm, Fleishhacker, Britton,
Jastro, and Bowles.

Executive Committee:
This committee consists of the chair-
men of all standing committees and
the President of the Alumni Asso-
ciation.

Finance:
Regents Earl, Foster, Britton, Moffitt,
Taussig, Fleishhacker, and Mc-
Enerney.

Grounds and Buildings:
Regents Britton, Wheeler, Bowles,
Dickson, and Fleishhacker.

Jurisprudence:
Regents McEnerney, Cochran, Wheel-
er, Gregory, and Young.

Letters and Science:
Regents Bowell, Wheeler, Ramm,
Wood, Gregory, and Mills.

Library, Research and Publications:
Regents Bowles, Moffitt, Gregory,
Wood, Mauxy, and Bowell.

Lick Observatory:
Regents Fleishhacker, McEnerney,
Young, Crocker, Mauxy, and Bowles.

Medical Instruction and University
Hospitals:
Regents Crocker, Taussig, Britton,
Earl, Moffitt, Ramm, Mrs. Sartori,
and Bowles.

Southern Branch of the University of
California and Scripps Institution
for Biological Research:
Regents Dickson, Cochran, Gregory,
Mrs. Sartori, Wood, Bowell, Taus-
sig, and Wright.

Wilmerding School:
Regents Taussig, Earl, Moffitt, and
Mauxy.

* The President of the Board of Regents and the President of the University are
ex officio members of all committees of the Board. In each committee the name of the
chairman is first and the name of the vice-chairman is second.
University of California

ADMINISTRATIVE OFFICERS

IN BERKELEY

President Emeritus of the University:
Benjamin Ide Wheeler
126 Library

President of the University:
David P. Barrows
217 California Hall

Executive Secretary to the President:
Morse A. Cartwright
217 California Hall

Comptroller, Secretary of the Board of Regents, and Land Agent:
Robert Gordon Sproul
220 California Hall

Recorder of the Faculties:
James Sutton
204 California Hall

IN LOS ANGELES

Southern Branch of the University of California—

Director of the Southern Branch:
Ernest C. Moore
103 Millsapugh Hall

Assistant Director of the Southern Branch:
Cloyd H. Marvin
105 Millsapugh Hall

Summer Session in Los Angeles:
Dean: Baldwin M. Woods
105 California Hall, Berkeley

†Los Angeles Medical Department—
Dean: *George H. Kress,
Acting Dean: E. K. Shumaker
245 Bradbury Building

Extension Division—
Representative in Southern California:
Miss Nadine Crump
Metropolitan Building

† Graduate instruction only is offered in the Los Angeles Medical Department.
* Absent on leave, 1921-22.
CIRCULAR OF INFORMATION

I. THE UNIVERSITY

INTRODUCTION

The following general information concerning the University is important for students in all of its branches and is, therefore, published for the guidance of those interested in the Southern Branch.

HISTORY

The establishment of the University of California in 1868 came as the result of three separate movements—one originating in private initiative, one in state action, and one in federal action.

Private action owed its inception to the foresight of Rev. Henry Durant. In 1853, under the auspices of the Presbytery of San Francisco, and of the Congregational Association of Oakland, Mr. Durant opened in Oakland the "Contra Costa Academy," but soon changed to the name of "College School," in order to signify that the undertaking was only preparatory to a projected college. In 1855 such an institution was incorporated under the name of "College of California." In 1860 that college was formally opened and classes were graduated from 1864 to 1869 inclusive. The instruction was given in buildings in Oakland, but in 1856 a tract of land was secured five miles to the north, and in 1866 the name of Berkeley was given to the townsite about the college campus.

State action had its start in the Constitutional Convention of 1849, which incorporated into the fundamental law recognition of and provision for a state university. There was constant public agitation down to 1868 for making the provisions effective.

Federal action began in 1853 when Congress gave the state 46,000 acres of land for a "seminary of learning." A further impulse was given in 1862 by the passage of the Morrill Act for the establishment of an Agricultural, Mining and Mechanical Arts College.

In 1867 these three forces began working together to one end—the establishment of a University of California, the private enterprise known as the College of California throwing in its buildings and four blocks of land in Oakland and its 160 acres of land in Berkeley, the federal government, the Congressional gift of 150,000 acres of public lands, and the state,
its property accumulated for the purpose, together with new legislative appropriations. The University of California was formally organized on March 23, 1868.

The University of California is governed by a Board of Regents of twenty-four members, sixteen of whom are appointed by the Governor and hold office for sixteen years, and eight are ex officio in character and tenure. The internal management is in the hands of the President and Academic Senate, consisting of the faculties and instructors of the University.

The first appointee to the Presidency was Henry Durant (1869–72), followed by Daniel Coit Gilman (1872–75), John LeConte (1875–81), William T. Reid (1881–85), Edward S. Holden (1885–88), Horace Davis (1888–90), Martin Kellogg (1890–99), Benjamin Ide Wheeler (1899–1919), and David Prescott Barrows (1919–).

In 1896 a movement, which had been undertaken for a permanent and comprehensive building plan on the Berkeley campus, was taken over and financed by Mrs. Phoebe Apperson Hearst. The ultimate plan was selected after two international competitions. A large group of buildings has already been erected on the site, partly from private donations and partly from state appropriations and bond issues.

The Southern Branch of the University of California was established by an act of the Legislature which went into effect July 24, 1919. On that date the Regents of the University assumed control of the grounds, buildings, and equipment of the institution theretofore known as the Los Angeles State Normal School.

DEPARTMENTS
I. IN BERKELEY

The Colleges of

Letters and Science,

Commerce,

Agriculture (including the courses at Berkeley, the University Farm at Davis, the Graduate School of Tropical Agriculture at Riverside, and the United States Agricultural Experiment Station, which includes stations at Berkeley and Davis, the Deciduous Fruit Station at Mountain View, the Citrus Experiment Station at Riverside, the Imperial Valley Experiment Station near Meloland, "Whitaker’s Forest" in Tulare County, and the M. Theo. Kearney Experiment Station at Kearney Park, Fresno County),

Mechanics,

Mining,

Civil Engineering,

Chemistry.
Announcement of the Southern Branch

The Schools of
Architecture,
Education,
Jurisprudence,
Medicine (first and second years).
The University Extension Division (offering instruction wherever classes can be formed, or anywhere in California by correspondence, providing lectures, recitals, motion pictures and other material for visual instruction, etc., giving guidance and suggestions to debating clubs, and offering aid to communities through its Bureau of Information and Social Welfare).
The Summer Session.
The California Museum of Vertebrate Zoology.

Departments of Instruction in the Colleges at Berkeley

II. At Mount Hamilton

The Lick Astronomical Department (Lick Observatory).

III. At Santiago, Chile

Lick Observatory, Chile Station.

IV. In San Francisco

California School of Fine Arts,
Hastings College of the Law,
Medical School (third, fourth, and fifth years, including hospitals),
The George Williams Hooper Foundation for Medical Research,
College of Dentistry,
California College of Pharmacy,
The Museum of Anthropology, Archaeology, and Art.
University of California

V. IN LOS ANGELES
Los Angeles Medical Department, graduate instruction only.
Southern Branch of the University.
The Summer Session.

VI. AT DAVIS
The University Farm School; college instruction and research in Agronomy, Animal Husbandry, Dairy Industry, Farm Mechanics, Olericulture, Poultry Husbandry, Pomology, Soils, and Veterinary Science.

VII. AT RIVERSIDE
The Graduate School of Tropical Agriculture.

VIII. AT LA JOLLA
The Scripps Institution for Biological Research.

IX. AT SWANTON
The Summer School of Surveying.

ORGANIZATION
The University of California is an integral part of the public educational system of the state. As such it completes the work begun in the public schools. Through aid from the state and the United States, and by private gifts, it furnishes facilities for instruction in literature and in science, and in the professions of art, law, medicine, dentistry, and pharmacy. In the colleges of Letters and Science, Commerce, Agriculture, Mechanics, Mining, Civil Engineering, and Chemistry these privileges are offered without charge for tuition to all residents of California who are qualified for admission. Non-residents of California are charged a tuition fee of seventy-five dollars each half-year. In certain professional colleges tuition fees are charged. The instruction in all the colleges is open to all qualified persons, without distinction of sex. The Constitution of the State provides for the perpetuation of the University with all its departments.

ADMINISTRATION
The government of the University of California is entrusted to a corporation styled THE REGENTS OF THE UNIVERSITY OF CALIFORNIA, consisting of the Governor, the Lieutenant-Governor, the Speaker of the Assembly, the State Superintendent of Public Instruction, the President of the State Board of Agriculture, the President of the Mechanics' Insti-
tute of San Francisco, the President of the Alumni Association, and the President of the University, as members ex officio, and sixteen other regents appointed by the Governor and approved by the Senate. To this corporation the State has committed the administration of the University, including management of the finances, care of the property, appointment of teachers, and determination of the internal organization in all particulars not fixed by law.

UNDERGRADUATE CURRICULA

The courses of instruction offered at the Southern Branch for the year 1921-22 are of three general types, as indicated below:

I. Curricula leading to teachers' certificates:
   (a) Two-year courses leading to the Elementary Teacher's Certificate or the Kindergarten-Primary Certificate.
   (b) Three-year courses leading to the Special Elementary Certificate in Commerce, Household Arts, Manual and Fine Arts, Music, or Physical Education.
   (c) Four-year courses, leading to the Special Secondary Certificate in Commerce, Household Arts, Manual and Fine Arts, Music, or Physical Education.

II. Four-year Courses for Teachers. Described on pages 79-88.

III. Junior College Curricula:
    Instruction covering the work of the Freshman and Sophomore years of the University.

ACADEMIC COLLEGES

The College of Letters and Science: to the degree of Bachelor of Arts.

   to the degree of Bachelor of Science:
   in the College of Commerce;
   in the College of Agriculture—in any one of the following: agricultural science, agronomy, animal industries, forestry, horticulture, landscape gardening;
   in the College of Mechanics—(1) in mechanical engineering, or (2) in electrical engineering, or (3) in marine engineering and naval architecture, or (4) in aerodynamics;
   in the College of Mining—(1) in mining, or (2) in metallurgy, or (3) in economic geology, or (4) in petroleum engineering;
   in the College of Civil Engineering—(1) in railroad engineering, or (2) in sanitary engineering, or (3) in irrigation engineering;
   in the College of Chemistry—(1) in chemistry, or (2) in chemical technology.

There are permitted, in addition, courses at large and partial courses, not leading directly to any degree, but through each of which, by compliance with the conditions upon which it is conferred, credit toward a degree may be acquired.

The University has no preparatory department.
At Berkeley also are the Schools of
Architecture, leading to the degree of Graduate in Architecture;
Education, leading to the degree of Doctor in Education and to
the high school teacher’s recommendation;
Jurisprudence, leading to the degree of Juris Doctor;
Medicine, first year and part of the second year of the five-year
curriculum leading to M.D. (the remainder of the work is given
in San Francisco);

And the curricula in
Public Health—three curricula, each leading to the degree of Grad-
uate in Public Health; two of these are given wholly at Berkeley
and the third (for candidates for M.D. and Gr.P.H.) is in part
at Berkeley and in part in San Francisco;
Home Economics, leading to the degree of Bachelor of Arts in the
College of Letters and Science, with a major subject in House-
hold Art or in Household Science.

The work of the Medical School (except that of the first year and part
of the second year, as above), of the California College of Pharmacy, of
the Hastings College of the Law, and of the College of Dentistry is con-
ducted in San Francisco. The first year of work in the Schools of Edu-
cation and Medicine, the first year of the three-year curriculum in the
School of Jurisprudence, the first and second years in the School of
Architecture, and the first and second years of the four-year curriculum
in Jurisprudence, may be credited towards the degree of Bachelor of Arts
in the College of Letters and Science. The work so credited is regarded
as academic rather than as purely professional in character, and the
student pursuing this work is enrolled not only in the appropriate school
or curriculum but also in the College of Letters and Science, and is subject
to all the regulations of that college.

In like manner students in the several curricula in Public Health may
be simultaneously candidates for the professional degree of Gr.P.H. and
also for the degree A.B. (College of Letters and Science), B.S. (College of
Civil Engineering), or M.D. (Medical School).
ADMISSION TO THE UNIVERSITY

ADMISSION FROM ACCREDITED SCHOOLS IN CALIFORNIA

A graduate of a California high school may enter the University of
California without examination provided the following requirements be
satisfied:

1. The school must have been accredited by the University of California.
2. The applicant must have completed a four-year high school course,
aggregating at least 15 standard units of preparatory work (the
equivalent of 45 units by the scale heretofore used), and he must
be duly certified as a graduate of the school.
3. The candidate must be specially recommended for admission to the
University of California.

In recommending graduates for admission to the University the prin-
cipals of accredited schools should use Recommendation Form A, with
application for admission attached. Copies of this form are supplied by
the University to the principals of all accredited schools in California.

The accrediting of secondary schools is regulated by an order of the
Regents of the University passed March 4, 1884, and amended September
10, 1895, and January 10, 1905. Principals’ applications for the accred-
iting of their schools must be in the hands of the Recorder of the Faculties
at Berkeley on or before the first day of December of each school year.

The list of accredited schools is published by the University annually,
in the month of June or July. Blank forms of application for accrediting
and lists of accredited schools may be obtained from the Recorder of the
Faculties at Berkeley.

Caution.—Candidates recommended in accordance with the foregoing
provisions are admitted to the University and enrolled in the curricula of
their choice. It will be seen, however, that some of these curricula cannot
be completed in the University in the normal period (four years for the
degree A.B. or B.S.) unless the candidate during his high school course
has completed such specific prerequisites as may underlie the University
work. A list of the curricula, with a statement of the preparatory work
required and recommended, is given hereunder.

ADMISSION FROM CALIFORNIA SCHOOLS NOT ACCREDITED

A graduate of a California secondary school not accredited by the
University who is strongly recommended by the principal of his school
will be admitted upon passing the following examinations:

English (2 units); U. S. History (1 unit); laboratory science (1 unit);
and two of the following groups:

(a) Advanced English and History (in addition to U. S. History), any
2 units.
University of California

(b) Mathematics (intermediate algebra and trigonometry), 1½ units.
(c) Foreign languages, 3 units in one, or 2 units in each of two.
(d) Additional advanced science, 2 units.

ADMISSION FROM APPROVED HIGH SCHOOLS IN OTHER STATES

Applicants from secondary schools outside of California are required to meet the same standards as applicants who enter from secondary schools in California. The committee in charge of admissions must have evidence of the following facts: that the school has an approved standing at universities or colleges of acknowledged rank; that the applicant has been graduated from a four-year course of not less than fifteen standard secondary units; that the high school programme shall have included the subjects prescribed by the California State Board of Education (see Preparatory Work Required and Recommended); and that the applicant has maintained an average scholarship standing well above the mark required by the school for promotion or graduation. The candidate may be certified by his principal upon the Principal's Recommendation, Form B. Copies of this form will be sent by the Recorder either to high school principals or to candidates for admission.

Caution.—Candidates recommended in accordance with the foregoing provisions are admitted to the University and enrolled in the curricula of their choice. It will be seen, however, that some of these curricula cannot be completed in the University in the normal period (four years for the degree A.B. or B.S.) unless the candidate during his high school course has completed such specific prerequisites as may underlie the University work. A list of the curricula, with a statement of the preparatory work required and recommended, is given hereunder.

ADMISSION BY EXAMINATION

Candidates who are unable to present satisfactory school certificates may be admitted to the University by passing examinations in the preparatory subjects constituting a standard high school course. The subjects to be presented must be arranged in advance with the University. The subjects to be required by the University will depend upon the applicant's high school training, his age, and his proposed course of study in the University. The applicant must pass examinations in at least fifteen standard high school units.

MATRICULATION EXAMINATIONS AT BERKELEY

Matriculation examinations are held in Berkeley in August and in January of each year; but the examinations in January are primarily for the purpose of enabling students in the University to remove matriculation deficiencies. Applicants for admission who present certificates
from their teachers that they are prepared in the subjects they offer will be admitted to the January examinations. Such certificates must be filed with the Recorder of the Faculties in Berkeley before the examinations.

No person save a registered student of the University will be allowed to take any matriculation examination without having first filed an application for admission.

A circular concerning the matriculation examinations may be obtained by addressing the Recorder of the Faculties, University of California, Berkeley, California.

**MATRICULATION EXAMINATIONS AT LOS ANGELES**

Applicants desiring to take matriculation examinations in Los Angeles may pass those conducted by the College Entrance Examination Board, described elsewhere.

**List of Preparatory Subjects**

A list of preparatory subjects, with the amount of matriculation credit assigned to each, is given below. This list is not exhaustive, but it represents most of the fields of instruction in the secondary schools of California. With exceptions noted below, the University holds entrance examinations in these subjects:

<table>

No examination.

*The dagger indicates subjects for which equivalent courses are offered in the University.

For further description of these courses reference should be made to the annual Announcement of Courses.
Certificate of successful examinations before the College Entrance Examination Board will be accepted in lieu of matriculation examinations conducted by the University of California.

The examinations of the College Entrance Examination Board are usually held during the third week in June.

All applications for examination must be addressed to the College Entrance Examination Board, 431 West 117th street, New York, N. Y., and must be made upon a blank form to be obtained from the Secretary of the board upon application. The separate form for the certificate of recommendation (also to be obtained from the Secretary of the board) should be addressed to the Chairman of the Committee on Admission of the university, college, or scientific school that the candidate wishes to enter.

If the application is received sufficiently early, the examination fee will be $6 for candidates examined in the United States or Canada and $20 for candidates examined outside of the United States or Canada. The fee should be remitted by postal order, express order, or draft on New York to the order of the College Entrance Examination Board, and should accompany the application.

The applications and fees of candidates who wish to be examined outside of the United States or Canada must reach the Secretary of the board at least six weeks in advance of the first day of the examinations. The applications and fees of candidates who wish to be examined in the United States at points west of the Mississippi River or in Canada must be received at least four weeks in advance of the examinations. The applications and fees of candidates who wish to be examined in the United States at points east of the Mississippi River or on the Mississippi River must be received at least three weeks in advance of the first day of the examinations.

When the candidate has failed to obtain the required blank form of application for examination, the usual examination fee will be accepted if the fee arrive not later than the specified date accompanied by a memorandum containing the name and address of the candidate, the examination center at which he wishes to present himself, and a list of all the subjects in which he may have occasion to take the board's examinations.

Applications received later than the dates named will be accepted only upon payment of $6 in addition to the usual fee.

A list of the places at which examinations are to be held by the board in June, 1922, will be published about March 1. Requests that the examinations be held at particular points, to receive proper consideration, should be transmitted to the Secretary of the Board not later than February 1.
Announcement of the Southern Branch

Points on the Pacific Coast at which examinations are usually held are as follows: Los Angeles, Berkeley, Nordhoff, Stanford University, Portland, Seattle, Spokane, Tacoma.

ADMISSION ON TEACHERS’ DIPLOMAS

Holders of Teachers’ Life Diplomas or of State Educational Diplomas of this state, or holders of similar diplomas recognized by the State Board of Education of California, may be admitted provisionally to the University in the academic departments, with the privilege of satisfying matriculation requirements by examination or by work in the University.

PREPARATORY WORK REQUIRED AND RECOMMENDED

THE HIGH SCHOOL PROGRAM

Aside from the specific prerequisites for certain curricula, as set forth below, no prescription of high school work is made by the University. It is assumed that the authorities in responsible control of secondary education will make reasonable provision for solidity and breadth in the high school course. The choice of electives during the high school period must be made by the pupil, under the direction of the school faculty, and the decision as to subjects chosen will be based not solely upon “recommendations” made by universities and colleges but also upon other considerations best known to the school authorities, such as the aptitude of the individual pupil and the extent to which proper facilities for work of high quality in the various subjects is supplied by the school. A resolution of the California State Board of Education directs that all public high school curricula in California require for graduation after July 1, 1920, the following: English, 2 units; United States history and civics, 1 unit; laboratory science, 1 unit; and all such curricula must be so organized as to include two majors of at least 3 units each—a major consisting of three years of study in one of the following groups: (1) English (in vocational courses 1 unit of citizenship may be included with 2 units of English to make one major); (2) mathematics, including mechanical drawing; (3) history and social science; (4) physical and biological sciences; (5) foreign language—3 or more units in one language, or 2 units in each of two languages. Special attention is invited to the importance of high school instruction in the following subjects:

Subject A: English Composition.—All undergraduate entrants are, immediately following their admission, required to take a written examination in Subject A: English Composition. Students who fail to make a satisfactory showing in this test are required to continue class work in English composition in the University until such time as they reach a
satisfactory standard of expression. A leaflet containing further information concerning Subject A may be obtained from the Recorder of the Faculties.

Foreign Language.—In practically all colleges and departments of the University a reading knowledge of a modern foreign language will be helpful. In many departments such reading knowledge is indispensable for advanced work. Though the University gives instruction in the elements of modern foreign languages, high school pupils who are intending to enter the University should not neglect the study of foreign language in the high school if facilities for such study be offered there. This work can, as a rule, be more profitably undertaken by pupils of high school age than by older persons. If it becomes necessary to limit the number of students receiving instruction in the elements of foreign languages in the University, preference will be given to those who enter with two years or more of high school credit in a foreign language.

Mathematics.—If possible, provision should be made in the high school program for two years of work in mathematics, namely, elementary algebra and plane geometry.

PREPARATION FOR THE VARIOUS CURRICULA

The requirements and recommendations for the various curricula are stated below.

A "curriculum" is understood to be either a technical or specialized program of studies, as in the Colleges of Engineering, Agriculture, and Commerce; or a more general program (as in the College of Letters and Science) with a designated major subject, such as history, mathematics, or philosophy.

With reference to major subjects in the College of Letters and Science, the subjoined statement of "requirements and recommendations" is addressed rather to the student who desires to be well prepared to complete a full undergraduate major—possibly as a candidate for honors—than to the student who wishes merely to satisfy minimum graduation requirements. In some subjects it will be possible for students to satisfy minimum graduation requirements in the major without complying in all respects with the prerequisites herein listed.

In the subjoined statement, the terms "required" and "recommended" are to be interpreted as follows:

Required: Subjects without which the student will not be able to enter the regular curriculum. The omission of required subjects at matriculation will usually result in delaying graduation. The University gives no instruction in elementary Latin; none in elementary algebra or plane geometry except in the Extension Division,
though, until further notice, resident instruction in plane geometry and elementary algebra will be provided for students who have not had this work in the high school. The equivalent of the high school courses in physics and chemistry is given in the summer session, not during the fall or spring session.

Recommended: Subjects which will usually give more effective preparation, and thus allow greater freedom of election at the University. The omission of these subjects at matriculation will usually not delay graduation if the student's work at the University is properly planned.

Note.—The numerals in parentheses represent units of high school work. A standard secondary unit is the measure of a subject pursued throughout the school year of from thirty-six to forty weeks and constituting approximately one-quarter of a full year's work.

Agriculture: leading to the degree of Bachelor of Science in the College of Agriculture.

Required: plane geometry (1); elementary algebra (1); chemistry (1).

Recommended: advanced mathematics, including trigonometry (2); physics (1); geometrical drawing (1); advanced English (2); a reading knowledge of a foreign language.

Anthropology: leading to the degree of Bachelor of Arts.

Recommended: foreign language, geography.

Architecture: leading to the degree of Bachelor of Arts in the College of Letters and Science, at the end of four years, and to the degree of Graduate in Architecture in the School of Architecture at the end of six years.

Required: plane geometry (1); elementary algebra (1); algebraic theory (½); trigonometry (½); physics (1); chemistry (1); geometrical drawing (1); freehand drawing (1); foreign language (2).

Recommended: advanced algebraic theory, including quadratics (½); solid geometry (½); Latin (2); French (2).

Chemistry: leading to the degree of Bachelor of Science in the College of Chemistry.

Required: same as for Engineering, with French or German. See also Sciences, below.

Commerce: leading to the degree of Bachelor of Science in the College of Commerce.

Required: algebra (1); plane geometry (1).

Recommended: additional mathematics; natural sciences; modern foreign language.
Dentistry: leading to the degree of Doctor of Dental Surgery in the College of Dentistry at the end of four years.

**Recommended:** physics (1); chemistry (1); zoology (1); manual training.

Drawing and Art: leading to the degree of Bachelor of Arts.

**Engineering Drawing.**

**Required:** plane geometry (1); elementary algebra (1).

**Recommended:** solid geometry (¼); plane trigonometry (¼); geometrical drawing (1); freehand drawing (1).

**Graphic Art.**

**Recommended:** freehand drawing (1).

Economics: leading to the degree of Bachelor of Arts.

**Recommended:** foreign language.

Education: leading to the degree of Bachelor of Arts.

**Recommended:** foreign language.

Engineering: leading to the degree of Bachelor of Science in one of the colleges of engineering. These colleges are: College of Mechanics — curricula in mechanical and electrical engineering, aerodynamics, marine engineering and naval architecture; College of Mining — curricula in mining engineering, petroleum engineering, metallurgy, and economic geology; College of Civil Engineering — curricula in railroad, sanitary, municipal, and irrigation engineering.

**Required:** plane geometry (1); elementary algebra (1); algebraic theory (¼); trigonometry (¼); physics (1); chemistry (1); geometrical drawing (1).

**Recommended:** advanced algebraic theory, including quadratics (¼); solid geometry (¼); freehand drawing (1); foreign language (2).

English: leading to the degree of Bachelor of Arts.

**Recommended:** Latin (4); Greek (3).

Forest Utilization: leading to the degree of Bachelor of Science in the College of Agriculture.

**Required:** same as for Engineering.

**Recommended:** same as for Engineering.

History: leading to the degree of Bachelor of Arts.

**Recommended:** foreign language.

Household Art: leading to the degree of Bachelor of Arts.

**Required:** chemistry (1).

**Recommended:** freehand drawing (1); botany (1); domestic science (2).
Household Science: leading to the degree of Bachelor of Arts.

Required: chemistry (1); domestic science (cooking) (1).
Recommended: physics (1); French or German (2).

Languages—Classics, Latin, Greek: leading to the degree of Bachelor of Arts.

Required: Latin (2).  
Recommended: advanced Latin (2); Greek (3); ancient history (1).  
To delay advanced Latin until the university is reached will make it exceedingly difficult, though not impossible, to do any considerable amount of advanced work in Latin.

Other Languages—Celtic, French, German, Italian, Oriental, Sanskrit, Semitic, Slavic, Spanish: leading to the degree of Bachelor of Arts.

Recommended: French (2) or German (2).  
Law: (A) leading to the degree of Bachelor of Arts in the College of Letters and Science at the end of four years, and to the degree of J.D. in the School of Jurisprudence at the end of six years.

Recommended: physics (1) or chemistry (1); Latin (2); U.S. history (1) and English history (1).

(B) leading to the degree of LL.B. in Hastings College of the Law (San Francisco) at the end of five years (two years in the College of Letters and Science at Berkeley followed by three years in Hastings College of the Law).

For further information see the annual announcements of the Hastings College of the Law and of the School of Jurisprudence.

Library Science: leading to the degree of Bachelor of Arts.

Recommended: foreign language.

Mathematics: leading to the degree of Bachelor of Arts.

Required: plane geometry (1); elementary algebra (1).
Recommended: advanced algebraic theory, including quadratics (1); solid geometry (½); trigonometry (½).

Medicine: leading to the degree of Doctor of Medicine in seven years; or to the degree of Bachelor of Arts in the College of Letters and Science and Doctor of Medicine in the Medical School in a combined course of eight years.

Required: English (3); elementary algebra (1); plane geometry (1); physics (1); chemistry (1); French (2) or German (2); history (1).  
Recommended: advanced mathematics; freehand drawing (1).  
A full statement of the prerequisites for the course in medicine will be found in the announcement of the Medical School.
Music: leading to the degree of Bachelor of Arts.
Recommended: harmony (1); history of music (1); vocal or instrumental technique or choral practice (1).

Nursing: leading to the degree of Bachelor of Science at the end of a five-year course, including two years' training in the University of California School of Nursing in San Francisco.
Required: elementary algebra (1); plane geometry (1); chemistry (1).
Recommended: foreign language.

Pharmacy: (a) leading to the degree of Ph.G. (Graduate in Pharmacy) at the end of a course of two years in the California College of Pharmacy.
Required: two years of approved high school work or its equivalent.
Beginning with the academic year 1922-23, the minimum entrance requirement will be graduation from an accredited high school or its educational equivalent.
(b) leading to the degree of Ph.C. (Pharmaceutical Chemist) at the end of a course of three years in the California College of Pharmacy.
Required: graduation from an approved high school course of four years or an equivalent preparation.
(c) leading to the degree of Phar.B. (Bachelor of Pharmacy) at the end of a course of four years in the California College of Pharmacy.
Required: graduation from an approved high school course of four years or an equivalent preparation.

Philosophy: leading to the degree of Bachelor of Arts.
Recommended: foreign language; mathematics; physics or chemistry.

Physical Education: leading to the degree of Bachelor of Arts.
Required: chemistry (1).
Recommended: foreign language, chemistry, physics, mathematics.

Political Science: leading to the degree of Bachelor of Arts.
Recommended: foreign language.

Public Health: (1) leading to the degree of Bachelor of Arts in the College of Letters and Science at the end of four years and to the degree of Graduate in Public Health (Gr.P.H.) in the Graduate Division at the end of six years.
Required: elementary algebra (1); plane geometry (1); physics (1); chemistry (1).
Recommended: advanced mathematics (2); German (2) or French (2); freehand drawing (1).
(2) leading to the degree of Bachelor of Science in the College of Civil Engineering (curriculum in sanitary engineering) at the end of four years and to the degree of Graduate in Public Health (Gr.P.H.) in the Graduate Division at the end of six years.

Required: same as for Engineering; see above.
Recommended: same as for Engineering; see above.

(3) leading to the degrees of Doctor of Medicine and Graduate in Public Health in seven years; or to the degrees of Bachelor of Arts and Graduate in Public Health in the College of Letters and Science and Doctor of Medicine in the Medical School in a combined course of eight years.

Required: elementary algebra (1); plane geometry (1); physics (1); chemistry (1).
Recommended: advanced mathematics (2); German (2) or French (2); freehand drawing (1).

Public Speaking: leading to the degree of Bachelor of Arts.

Recommended: same as for English; see above.

Sciences (Anatomy, Astronomy, Bacteriology and Experimental Pathology, Biochemistry, Botany, Chemistry, Geography, Geological Sciences (Geology, Mineralogy and Paleontology), Hygiene, Physics, Physiology, Psychology, Zoology): leading to the degree of Bachelor of Arts.

Required: elementary algebra (1); plane geometry (1); chemistry (1); physics (1). Physics or chemistry and trigonometry are required for students who intend to specialize in physics.

Recommended: advanced mathematics (2); German (2) or French (2). Physics (1) is recommended but not required for students who intend to specialize in zoology or geography. Geometrical drawing (1) is recommended for students who intend to specialize in chemistry.

ADMISSION WITH ADVANCED STANDING

ADMISSION FROM OTHER COLLEGES AND UNIVERSITIES

Applicants may be given advanced standing in the University of California on the basis of certificates from other colleges and universities upon the approval of the certificates by the proper committee. A form of statement of university work, which may be used for such certificates, will be furnished on application to the Recorder of the Faculties, University of California, Berkeley. It may be filled out by the applicant himself, but should be duly certified by the proper officer of the institution.
in which the work was done. There should also be submitted some credential showing in detail the basis upon which the applicant was matriculated in the institution from which he comes; and the preparatory subjects for which matriculation credit was given. These documents should be filed with the Recorder of the Faculties, in order that they may be placed before the Board of Admissions for an estimate of their value in terms of the requirements of the University of California. The committee, acting on behalf of the faculties, is empowered to reject the certificates, in whole or in part, and to require examination in any or all of the subjects offered.

Credit for Subject A (English expression) is not given upon certificate. An examination at the University is required in all cases.

ADMISSION FROM NORMAL SCHOOLS

A recommended graduate of a two-year academic course in a California state normal school, who is also a graduate (with University recommendation) of an accredited high school, receives in the University thirty-two units of credit and exemption from the prescribed work in physical education and hygiene. Further credit, depending upon subject matter and scope of the course taken in the normal school, may be allowed to the extent of sixteen units; but the normal school graduate will not be able to utilize the maximum of credit allowed unless his high school and normal school programme have been so planned as to make it possible to meet the junior certificate and degree requirements of the college in which he enrolls.

In the College of Letters and Science and in the College of Commerce the junior certificate requirements are largely prescribed, and allow only a limited amount of free elective credit. A normal school graduate who has had little or no training in foreign languages will ordinarily find it impossible to take advanced work in foreign languages in the University in a programme of study leading to the bachelor's degree in two and one-half years.

Similarly the premedical curriculum and the curricula of the colleges of engineering include a number of prescribed courses which are not paralleled in the normal school curriculum.

Graduates of California State normal schools or of other normal schools of equal rank who become candidates for a high school teacher's certificate may be exempted from the additional half-year of residence required beyond the bachelor's degree.

The foregoing allowance of credit is conditioned upon the presentaion by the applicant of satisfactory recommendations both from the high school and from the normal school.
Credentials from high schools and normal schools of states other than California are evaluated in accordance with this general plan. The applicant must in every such case submit the detailed record of his high school and later studies in order that the Board of Admissions may be satisfied that the applicant has met the California requirements both as to selection of his studies and as to scholarship standing. Blank forms for statement of the applicant's studies may be obtained from the Recorder of the Faculties on request.

**ADMISSION FROM SCHOOLS AND COLLEGES IN FOREIGN COUNTRIES**

Graduates of approved schools and colleges in foreign countries may be admitted only if their command of English is sufficient to permit them to profit by university instruction. This will be tested by an oral and written examination set by the Board of Admissions. A brief circular concerning the rules of the Board of Admissions in the matter of assignment of credit in languages to foreign students may be obtained from the Recorder of the Faculties, University of California, Berkeley, California.

**SURPLUS MATRICULATION CREDIT**

With the adoption of the revised plan of admission to the University there is no longer provision for advanced standing in the University on the basis of surplus high school credit. Such credit may, by special action of the Board of Admissions, be given under the old rules to students who matriculated in the University before August, 1920.
II. THE SOUTHERN BRANCH

INTRODUCTION

The following brief statements regarding the Southern Branch of the University are of interest to all who are in any way connected with it or with the parent institution.

HISTORY

In March, 1881, the Los Angeles State Normal School was established by legislative act. A five-acre site at the corner of Fifth and Grand avenue was secured and the corner stone of the first building was laid December 17, 1881. The school opened in August, 1882, with a faculty of three members and an enrollment of sixty-one students.

The original site and buildings having become inadequate for the growing needs of the institution, in 1907 the Legislature authorized the sale of the property and in 1911 made an appropriation for the purchase of a more suitable location. In the following year the present site, a campus of twenty-four acres (later increased to twenty-five) was purchased, and on November 18, 1913, the cornerstone of the principal building, Millspaugh Hall, was laid. In September, 1914, the school occupied the new group of buildings.

By an act of the Legislature which became effective July 24, 1919, the Los Angeles State Normal School became the Southern Branch of the University of California. The Regents of the University assumed control of the grounds, buildings and equipment, and Dr. Ernest C. Moore was appointed Director of the Southern Branch of the University of California.

This act provided for continuance of teacher training courses then being given and for the institution of freshman and sophomore work of the University.

SITE AND BUILDINGS

The campus of the Southern Branch of the University of California is bounded by Vermont avenue, Monroe street, Heliotrope drive, and Willowbrook avenue. The ten buildings which form the group are in a style of architecture reminiscent of the Lombardy style found in northern Italy. The Southern California Chapter of the American Institute of Architects awarded the group its first annual medal.
CLIMATE

The climate of Los Angeles is essentially maritime and is therefore well suited to college work at all seasons of the year. The mean annual temperature is 62° F. August, the warmest month, has a mean temperature of 71° F. The coldest month is January, the mean temperature of which is 54° F. The high percentage of sunshine and the invigorating sea breezes are conducive to both physical and mental vigor.

ADMINISTRATIVE OFFICERS

DAVID PRESCOTT BARROWS, Ph.D., LL.D., President of the University.

ERNEST CARROLL MOORE, Ph.D., LL.D., Professor of Education and Director of the Southern Branch of the University.

ADVISORY ADMINISTRATIVE BOARD, SOUTHERN BRANCH, UNIVERSITY OF CALIFORNIA:

- ERNEST C. MOORE, Ph.D., LL.D., Chairman,
- BALDWIN M. WOODS, Ph.D.,
- ROBERT J. LEONARD, M.A.,
- THE COMPTROLLER OF THE UNIVERSITY.

- CLOYD H. MARVIN, Ph.D., Assistant Director.

- HELEN MATTHEWSON LAUGHLIN, Counsellor of Women.

- LEWIS A. MAVERICK, M.A., Recorder.

- WILLIAM J. NORRIS, M.D., Physician for Men.

- LILLIAN RAY TITCOMB, M.D., Physician for Women.

- RUBY I. MCLEAN, R.N., Nurse.

- M. BURNEY PORTER, Appointment Secretary and Supervisor of Teacher Training.

- ELIZABETH H. FARGO, Librarian.

- ELIZABETH P. STURTEVANT, Assistant Librarian.

- BEATRICE M. HOLLOWAY, Assistant Librarian.

- ESTELLA D. LAKE, Assistant Librarian.

FACULTY

- JOHN MEAD ADAMS, Ph.D., Associate Professor of Physics.

- BERNICE ALLEN, Instructor in Home Economics.

- EVA M. ALLEN, Associate in Commercial Practice.

- HERBERT F. ALLEN, Ph.D., Assistant Professor of English.

- SARAH ROGERS ATSATT, M.S., Instructor in Biology.

- MABEL O. BARNHART, Associate in Music.

- RUTH E. BAUGH, A.B., Associate in Geography.

- FREDERICK E. BECKMAN, Ph.D., Associate in French and Spanish.

- ISABEL BEVIER, Ph.M., D.Sc., Lecturer in Home Economics.
University of California

- W. G. BINGHAM, Captain, U. S. A., Assistant Professor of Military Science and Tactics.
- FREDERICK T. BLANCHARD, M.A., Associate Professor of English.
- ETHEL BRITTO, Training School Teacher in charge of First Grade.
- FOSR R. BROCKWAY, Associate in Mechanic Arts.
- ANNA P. BROOKS, A.B., B.S., Instructor in Fine Arts.
- H. R. BRUSH, Ph.D., Associate Professor of Romance Languages.
- MARGARET M. CAMPBELL, B.S., Training School Teacher in charge of the Ninth Grade.
- MARGARET CARHART, Ph.D., Instructor in English.
- FORD ASHMAN CARPENTER, LL.D., D.Sc., Lecturer in Meteorology.
- MRS. A. G. W. CERP, M.A., Litt.D., Honorary Lecturer in French.
- HELEN C. CHANDLER, Assistant Professor of Fine Arts.
- ORABEL CHILTON, B.S., Associate in Home Economics.
- KATHERINE CLOSE, M.D., Lecturer in Hygiene.
- MYRTIE COLLIER, B.S., Assistant Professor of Mathematics.
- KATHERINE COLLINS, M.A., Associate in English.
- E. M. COOCH, Lecturer in Credits and Collections.
- FREDERICK W. COZENS, M.A., Assistant Professor of Physical Education.
- JOHN E. CREE, Major, U. S. A., Assistant Professor of Military Science and Tactics.
- WILLIAM R. CROWELL, Ph.D., Assistant Professor of Chemistry.
- MADELINE CROWELL, Teacher of Home Economics in the Training School.
- MARVIN L. DARTER, M.A., Assistant Professor of Education.
- PIERIE DAVIDSON, M.A., Instructor in Zoology.
- ANNITA DELANO, Associate in Fine Arts.
- LEO DELGASSO, Assistant in Physics.
- L. E. DODD, Ph.D., Assistant Professor of Physics.
- JAMES ROY DOUGLAS, Ph.D., Lecturer in Administration.
- MARY E. DOUGLASS, M.A., Assistant Teacher in the Kindergarten.
- ALBERT W. DOWDEN, A.B., Associate in Physical Education for Men.
- FRED M. ESSEN, Ph.D., Instructor in Botany.
- MAUD EVANS, Associate in Home Economics.
- GRACE M. FERNALD, Ph.D., Associate Professor of Psychology.
- S. CAROLYN FISHER, Ph.D., Assistant Professor of Psychology.
- LUCY M. GAINES, M.A., Instructor in History.
- GEORGE W. GALEBREATH, Supervisor of Classes for the Training of Trade and Industrial Teachers.
- NELLIE H. GERE, Associate Professor of Fine Arts.
- HARRIET E. GLAZIER, M.A., Assistant Professor of Mathematics.
- NORMA GOULD, Assistant in Gymnastics.
- AUSTIN K. GRAY, M.A., Assistant Professor of English.
- BARBARA GREENWOOD, Teacher in charge of the Kindergarten.
Announcement of the Southern Branch

- Lucile R. Grunewald, Associate in Physical Education.
- Florence M. Hallam, A.B., Associate in Home Economics.
- Edith Harshberger, A.B., Associate in Physical Education for Women.
- Bessie E. Hazen, A.B., Instructor in Fine Arts.
- Katherine Hershey, Associate in Physical Education.
- Alice Hubbard, Teacher of Spanish in the Training School.
- Alice O. Hunnewell, Instructor in English.
- Guy H. Hunt, C.E., Instructor in Surveying.
- Sigurd Hustvet, Ph.D., Assistant Professor of English.
- Mabel C. Jackson, A.B., Training School Teacher in charge of the Seventh Grade.
- Emily D. Jameson, Associate in Physical Education.
- Raymond Jenkins, Ph.D., Instructor in English.
- Katherine Kahley, A.B., Training School Teacher in charge of the Eighth Grade.
- Adrian D. Kellar, Associate in Mechanic Arts.
- Helen B. Keller, Supervisor of Adjustment Room.
- Blanche Kells, Training School Teacher in charge of Physical Education.
- Frank J. Klingberg, Ph.D., Associate Professor of History.
- Anna Krause, A.B., Associate in Spanish.
- Melva Latham, A.B., Assistant Professor of History.
- Elizabeth Lathrop, Associate in Home Economics.
- C. A. LeDeuc, M.B.A., Ph.D., Assistant Professor of Accounting.
- Madeleine Letessier, Associate in French.
- Lawrence C. Lockley, A.B., Associate in English.
- Lawrence T. Lowrey, Ph.D., Assistant Professor of History.
- Maria Lopez de Lowther, B.S., Lecturer in Spanish.
- Pauline Lynch, Associate in Home Economics.
- Myrta L. McClellan, B.S., Assistant Professor of Geography.
- Arthur P. McKinlay, Ph.D., Assistant Professor of Latin.
- Katherine L. McLaughlin, M.A., Associate Professor of Education.
- Donald Mackay, A.B., Associate in Philosophy.
- Agnes E. Macpherson, Associate in Home Economics.
- Harold W. Mansfield, Assistant Professor of Mechanic Arts.
- James W. Marsh, Associate in Mechanic Arts.
- Charles E. Martin, Ph.D., Assistant Professor of Government.
- Cloyd H. Marvin, Ph.D., Associate Professor of Commerce.
- Loyd H. Miller, Ph.D., Associate Professor of Biology.
- Ernest Carroll Moore, Ph.D., LL.D., Professor of Education.
- William Conner Morgan, Ph.D., Professor of Chemistry.
University of California

- 1 E. S. Nelson, A.B., Associate in Commerce.
- 1 Olive Newcomb, Associate in Industrial Arts.
- 1 Frank E. Older, B.S., Assistant Professor of the Teaching of Agriculture.
- 1 Gladys Palmer, A.B., Associate in Physical Education.
- 1 Guy H. Palmer, Colonel, U. S. A., Retired, Associate Professor of Military Science and Tactics.
- *Alma M. Patterson, M.A., Instructor in Education.
- 1 John B. Phillips, Associate in Mechanic Arts.
- 1 Estella B. Plough, Associate in Commercial Practice.
- 1 Edith H. Ringer, Training School Teacher in charge of Third Grade.
- 1 G. B. Robertson, Ph.D., Instructor in Chemistry.
- 1 Emma J. Robinson, Training School Teacher in charge of Sixth Grade.
- 1 Clarence H. Robinson, Ph.D., Assistant Professor of Education.
- 1 Ethel I. Salisbury, M.A., Associate Professor of Elementary Education.
- 1 Mrs. Adelaida A. Samuels, Teacher in charge of the Sub-Primary Class.
- 1 George E. F. Sherwood, M.A., Associate Professor of Mathematics.
- 1 Harry M. Showman, E.M., M.A., Assistant Professor of Mathematics.
- 1 Birdie K. Smith, Associate in Fine Arts.
- 1 William A. Smith, Ph.D., Assistant Professor of Education.
- 1 Louise P. Sooy, Assistant Professor of Fine Arts.
- 1 Vernon Spencer, Assistant Professor of Music.
- 1 Katherine Spiers, B.L., Training School Teacher in charge of Fourth Grade.
- 2 Lulu M. Stedman, Training School Teacher in charge of Fifth Grade.
- 1 H. W. Stone, Ph.D., Instructor in Chemistry.
- 1 Nellie B. Sullivan, A.B., Instructor in Psychology.
- 2 Florence Sutton, Assistant in the Department of Physical Education for Women.
- 2 Evalyn Thomas, A.B., Instructor in English.
- 2 Harry Trotter, Assistant in Physical Education.
- 2 Bertha W. Vaughn, Teacher of Voice.
- 2 Frederick P. Vickery, B.S., Instructor in Geology.
- 2 C. W. Waddle, Ph.D., Professor of Education, in charge of Training.
- 2 Edith Wallop, Training School Teacher in charge of Second Grade.
- 2 Bertha A. Wardell, Associate in Physical Education.
- 2 Ethel B. Waring, M.A., Assistant Professor of Education.
- 2 A. H. Warner, A.B., B.S., Associate in Physics.
- 2 Bertha E. Wells, Assistant Supervisor of Practice Teaching.
- 2 Natalie White, Associate in Industrial Arts.
- 2 Belle H. Wistocki, Associate in Industrial Arts.
- 2 Florence Wilson, A.B., B.S., Associate in Home Economics.
- 2 Francis A. Wright, Associate Professor of Public School Music.

* Absent on leave 1921-22.
COURSES OF INSTRUCTION FOR THE YEAR 1921-1922

JUNIOR COLLEGE

THE REGULAR JUNIOR COLLEGE COURSE OF TWO YEARS

In accordance with the authorization of the State Legislature, a limit of 1200 has been placed for admission to junior college courses for the academic year 1921-22.

In order to avoid possible failure to secure admission, applicants should register with the Recorder of the Southern Branch as early as possible. Credentials should be filed as soon as they are obtainable from the school authorities, in order that they may be passed upon not later than September 8. A fee of two dollars is charged for late registration, i.e., registration after September 13.

TEACHERS' CURRICULA

In accordance with the authorization of the State Legislature, a limit of 1200 has been placed for admission to the teachers' courses.

In order to avoid possible failure to secure admission, applicants should register with the Recorder as early as possible. Complete credentials should be filed as soon as they are obtainable from school authorities, in order that they may be passed upon not later than September 8. A fee of two dollars is charged for late registration, i.e., registration after September 13.

The following courses will be offered:

1. A two-year course for the training of elementary teachers, which leads to recommendation for the elementary teachers' certificate.
2. A two-year course in preparation of candidates for the kindergarten- primary certificate.
3. Three-year curricula which meet the requirements of the State Board of Education for the elementary teachers' certificate and those of a special certificate in one of the following departments, viz.: Fine Arts, Home Economics, Music, Mechanic Arts, or Physical Education.
5. Four-year Courses for Teachers. The Regents of the University, at their meeting on February 8, 1921, authorized the establishment of four-year courses for teachers at the Southern Branch. The third year of these curricula will be offered for the first time in 1921-22, and the specific
courses composing the first three years of the curricula are stated in detail on pages 79–88. The fourth year's work will be announced early next year, and the instruction will be given for the first time in 1922–23. A limited number of students will be admitted to the third year of the courses in September, 1921; applications for admission should be filed with the Recorder of the Southern Branch.

ADVANCED WORK

Students who complete the regular two-year course for the elementary teachers' certificate have the opportunity to qualify for the junior high school certificate (grades 7–9) by an additional year of resident work during which, in accordance with the rules of the State Board of Education, they must complete the following requirements:

Thirty semester hours of work, at least ten semester hours of which must be taken in each of two of the following subjects: English, mathematics, French, Spanish, Latin, social sciences, physical sciences, or biological sciences.

Opportunity will be afforded such students to do practice teaching in the University Junior High School in the subjects of their choice. In a limited number of cases practice in supervision and administration may be afforded.

ADMISSION WITH ADVANCED STANDING

Applicants presenting credit earned in normal schools, colleges or universities, as well as those presenting evidence of successful experience in teaching covering a period of one or more years, will be given such advanced standing as individual cases merit.

Applicants for advanced standing should file credentials with the Committee on Advanced Standing.

TEACHING CREDENTIALS

Teachers' certificates are issued by city, county, and state boards of education in accordance with the provisions of the Political Code of California, Section 1519a; Section 1771, Subdivision 3; Section 1775, Subdivision 1, and Section 1792. The Southern Branch of the University of California is empowered, under the provisions of Section 1507, Subsection 3, of the Political Code, and in accordance with rules laid down by the State Board of Education, to grant recommendations for teachers' certificates, valid in this state, in each of the following grades: (1) Kindergarten-Primary, (2) Elementary, (3) Junior High School, (4) Special Elementary, (5) Special Secondary in Art, Commerce, Home Economics, Mechanic Arts, Music, and Physical Education. Preliminary certificates,
entitling the holder to do cadet teaching without salary, are also issued to student teachers upon recommendation of the Southern Branch. These certificates are granted under the following conditions:

1. Temporary Preliminary Certificates. (Valid for practice teaching without salary in such public school grades and subjects as may be indicated by the grade of certificate or definitely specified therein.)

   No student teacher is permitted to teach in any public school without one of the following types of preliminary certificate. These may be arranged for by the Department of Practice Teaching:

   (a) Preliminary Certificate, Kindergarten.
   (b) Preliminary Certificate, Elementary.
   (c) Special Certificate, Elementary.
   (d) Special Certificate, Secondary.

2. The Kindergarten-Primary Certificate. (Valid in any public kindergarten or in the first grade of any elementary school of the state.)

   (a) The completion of the two-year kindergarten-primary curriculum.

3. The Elementary Teachers' Certificate. (Valid in the eight grades of the elementary schools.)

   (a) The completion of the two-year teachers' course.

4. The Junior High School Teachers' Certificate. (Valid in grades seven, eight, and nine when organized as intermediate schools.)

   (a) The recommendation of the University to the County Board of Education upon the completion of the two-year elementary teachers' curriculum and thereafter of thirty additional semester hours of college or teachers' course work at least twenty-two semester hours of which must be in two of the following subjects: English, mathematics, Spanish, Latin, social sciences, physical sciences, biological sciences.

5. Elementary Special Certificate. (Valid for special subjects only in the eight grades of the elementary schools.)

   (a) The completion of the three-year teachers' curriculum in preparation of elementary teachers in one of the following special fields: Household Arts, Manual and Fine Arts, Music, Physical Education.

6. Secondary Special Certificate. (Valid for the special subjects in high schools.)

   (a) The completion of the four-year teachers' curriculum in preparation of secondary teachers of one of the following special types: Commerce, Household Arts, Manual and Fine Arts, Music, Physical Education.
THE JUNIOR COLLEGE CURRICULA

As a guide to junior college students in the arrangement of their study lists the following requirements for junior standing in the various colleges of the University are presented:

NOTE.—For further information concerning the courses referred to in the following curricula reference should be made to the Announcement of Courses beginning on page 99 of this bulletin or (for courses not herein described) to the Announcement of Courses for 1921-22, published July, 1921; for sale by the Cooperative Book Store, Southern Branch, University of California, Los Angeles. Price, 25 cents.

COLLEGE OF LETTERS AND SCIENCE

LOWER DIVISION

The work of the lower division comprises the studies of the freshman and sophomore years. The junior certificate marks the transition from the lower division to the upper division (junior-senior years).

The junior certificate in the College of Letters and Science will be required for admission to the upper division in and after August, 1921, of all candidates for the bachelor’s degree except those who in August, 1920, had completed more than 12 units, or who in August, 1921, shall have completed more than 44 units in the lower division of the College of Letters and Science. It will be required of all students for admission to the upper division in and after January, 1922.

Students transferring from other colleges of the University of California or from other institutions will be required to meet substantially the junior certificate requirements, but will not be held strictly to the time distribution of requirements.

In the lower division of the College of Letters and Science it is expected that the student, in addition to fulfilling the prerequisites for the major work upon which he will concentrate in the upper division, will make an effort to establish a basis for that breadth of culture which will give him a realization of the methods and results of some of the more important types of intellectual endeavor, and a mental perspective that will aid him in reaching sound judgments. The junior certificate requirements were designed to provide in some degree for the accomplishment of this purpose, without unduly limiting the student’s opportunity to satisfy his special tastes and preferences.

Certain courses taken in the high school are accepted as fulfilling in part or in whole some of these junior certificate requirements. It is desirable that the student should so arrange his high school program as to reduce the required work in the fields of foreign language, mathe-
matics, and natural science. This makes his program more flexible, gives him a greater freedom of choice, and prepares him to pass more quickly into advanced work or into new fields of study. In no case, however, does the satisfaction of junior certificate requirements in the high school reduce the minimum amount of work required in the University for the junior certificate (60) or for the degree (124).

The degree requirements of 124 units is calculated on the basis that the student will normally take 64 units of work in the lower division including the prescribed work in military and physical education and 60 units in the upper division. However, the junior certificate will be granted on the completion of not less than 60 units of college work and the fulfillment of the following specific requirements:

(a) General University Requirements.
   Subject A.*
   Military, 6 units (men).
   Hygiene, 1 unit (men) or 2 units (women).
   Physical Education, 2 units.

(b) Foreign Language. At least 15 units in not more than two languages. Each year of high school work in a foreign language will be counted in satisfaction of 3 units of this requirement. Courses given in English by a foreign language department will not be accepted in fulfillment of this requirement.

(c) Mathematics. Elementary Algebra and Geometry. These subjects are not regularly given in the University except in the Extension Division, but for the academic year 1921-22, a course covering these subjects may be organized for students who have not completed this requirement in the high school.

(d) Natural Science. At least 12 units chosen from the following list:
   High School Physics (3A), 3 units (1 high school credit).
   High School Chemistry (3B), 3 units (1 high school credit).
   Astronomy 1, 2A-2B, 4, 5, 11.
   Bacteriology 1.
   Botany 1, 2A-2B.
   Chemistry 1A-1B, 5, 6A-6B, 8.
   Geography 1C, 2C.
   Geology 1A, 1B, 6.
   Mineralogy 1A-1B, 2AB.
   Paleontology 1.
   Physics 2A-2B, 3A-3B, or 3C-3D.
   Zoology 1A-1B, 10.

* An examination in Subject A: English Composition is required of all intrants at the time of their first registration in the University. Date of next examination: Thursday, September 8, 1921, 2:30 p.m.
(e) Additional. At least 9 units (a year sequence plus enough to make at least 9 units) from one of the following groups and at least a year course in each of two others:

(1) English, Public Speaking.
(2) Foreign Language (additional to b). This may be satisfied in whole or in part in the high school, provided the language be Latin.
(3) Mathematics: Plane Trigonometry, Plane Analytic Geometry, Introduction to Calculus. This may be satisfied partly in the high school.
(4) History, Economics, Political Science.
(5) Philosophy.

The work offered in satisfaction of requirement (e) must consist of subjects of college grade, except as otherwise provided, as shown in detail in the following list:

**Courses Acceptable in Fulfillment of Requirement (e) for the Junior Certificate**

Group 1.—English and Public Speaking

*Year Course:* English 1A–1B, 1x–1B.

*Public Speaking:* 1A–1B.

*9-unit Option:* A year sequence plus 3 units from the following:
- Public Speaking 2A, 2B, 5A, 5B, 10A, 10B.

Group 2.—Foreign Language

*Year Course:* Celtic 1A–1B.

French: Any two consecutive courses of A, B, C, D, 1A, 1B, 5 or any upper division year-sequence.

German: Any two consecutive courses of A, B, C, D; or BC–RD; SC–SD; or any upper division year-sequence.

Greek: 1A–1B; 2A–2B; 1AB–2AB; or 101, 102.

Italian: Any two consecutive courses of A, B, C, D, or any upper division year-sequence.

Latin: Any year-sequence from the following: C–D; LA–LB; 1, 5, 2, 6.

Oriental Languages: 3A–3B; 3C–3D; 9A–9B; or 9C–9D.

Sanskrit: 101A–101B.

Semitic Languages: 3A–3B.

Slavic Languages: 1A–1B; 6A–6B; 10A–10B or 14A–14B.

Spanish: Any two consecutive courses of A, B, C, D, or any upper division year-sequence.
9-unit Option: 9 units selected from the courses offered in any department, except that courses given in English, or courses not requiring a study of the language or literature in the original will not be accepted. High School Latin may be used to satisfy this requirement in part or in whole, each year of High School Latin counting as 3 units.

Group 3.—Mathematics

Year Course: Any two consecutive courses of C, 5, 9, 3A-3B.

9-unit Option: Any 9 units selected from C, 5, 9, 3A, 3B, 4A, 4B. High school plane trigonometry (2e) and plane analytic geometry (2f) will each count for 2 units.

Group 4.—History, Economics, Political Science

Year Course: History 4A-4B; or 8A-8B.
Economics 1A-1B; or 10-11.
Political Science 1A-1B.

9-unit Option: A year sequence plus 3 units from the following:
History 4A-4B, 8A-8B, or
Economics 1A-1B, 10, 11.
Political Science 1A-1B, 2.

Group 5.—Philosophy

Year Course: Philosophy 1A-1B; 3A-3B; or 4A-4B.

9-unit Option: A year course plus enough to make 9 units, selected from the following:
Philosophy 1A-1B, 3A-3B, 4A-4B.

Credit by examination. Provision will be made for the satisfaction of requirements (b) to (e) inclusive, by examination in lieu of the completion of the usual course requirements. Applicants for such examination must give notice of their intention to the Recorder of the Faculties and secure the authorization of the Executive Committee of the College of Letters and Science by written petition. Such authorization will not be given if the preparation for the examination be based on course instruction received at the University of California.

Honorable mention with the junior certificate. Honorable mention will be granted with the junior certificate to students who attain at least second or B grade in 45 units. A student who gains honorable mention is thereby considered eligible for the honors-status in the upper division.
In and after August, 1921, except as noted above under Lower Division, only those students who have been granted the junior certificate, signifying their completion of lower division requirements, will be registered in the upper division.

The degree of Bachelor of Arts will be granted upon the following conditions:

1. The total number of units in college courses in the lower and upper division offered for the degree must be at least 124.
2. To receive the A.B. degree in and after May, 1923, the student must attain at least as many grade points as units in all work undertaken in the University in or after August, 1921.
3. At least 54 units of college work must be completed after the receipt of the junior certificate.
4. At least 36 units of work done in the upper division must be in upper division or graduate courses in the following departments or subjects:

- Agriculture
- Anatomy, M
- Anthropology, M
- Architecture
- Astronomy, M
- Bacteriology (in Department of Bacteriology and Experimental Pathology), M
- Biochemistry (in Department of Biochemistry and Pharmacology), M
- Botany, M
- Celtic, M
- Chemistry, M
- Civil Engineering
- Engineering
- Drawing (in Department of Drawing and Art)
- Economics, M
- Education, M
- English, M
- French, M
- General Literature, M
- Geological Science, M
- Geography, M
- German, M
- Graphic Art (in Department of Drawing and Art), M
- Greek, M
- History, M
- Household Art, M
- Household Science, M
- Hygiene (for major see Public Health curriculum)
- Irrigation
- Italian, M
- Jurisprudence (for major see School of Jurisprudence)
- Latin, M
- Library Practice
- Mathematics, M
- Mechanical and Electrical Engineering
- Medical Sciences (for major see School of Medicine)
- Military Science
- Mining and Metallurgy
- Music, M
- Oriental Languages, M
- Philosophy, M
- Physical Education for Men
- Physical Education for Women
- Physics, M
- Physiology, M
- Political Science, M
- Psychology, M
- Public Speaking, M
- Sanskrit, M
- Semitic Languages, M
- Slavic Languages, M
- Spanish, M
- Zoology, M
Students may major in any of the departments the names of which are followed by the letter "M".

5. Candidates for graduation in May or December, 1922, must take at least 12 of the required upper division units in a single department exclusive of courses in Agriculture, Civil, Mechanical and Electrical Engineering, General Literature, Irrigation, Library Practice, Mining and Metallurgy. The choice of the 12 units must be approved by the department concerned.

6. Candidates for graduation in or after May, 1923, must complete a major of 24 upper division units according to the rules given below.

7. The final or senior year, including at least 24 units, must be taken in resident courses of instruction at this University. This work can most satisfactorily be done during the regular (not summer) sessions.

**Candidacy for Honors**

The attention of juniors and seniors is called to the fact that the only requirement for registration as honors students is the formal approval of the department of their choice. Serious students who have done reasonably well in the lower division are strongly recommended to avail themselves of the advantages which they can derive as honors students from the personal guidance and supervision of the members of the department in which they choose to do their major work. In the College of Letters and Science, juniors and seniors who wish to register as honors students use a special form of study-list which may be obtained at the time of registration.

Any student who is approved by his major department as a member of the honors group will, so long as he remains in the honors group, report at the beginning of each half-year to the department of his major work. The department will advise him in the choice of his studies and will specifically approve all courses taken in the department of the student's major.

After the first half of the junior year the Committee on Candidates for Honors, will, upon the recommendation of the several departments, decide what students shall remain in the honors group, and what students shall be promoted to the honors group. In determining these matters, the committee will consider not only the student's work in the department of his major but his entire record.

The several departments have full freedom in determining the most efficacious methods for the training of candidates for honors; but no student will be required to take more than 24 units of upper division
work in the department of his major. Departments may offer special honors courses in reading and research, with credit to be determined by the instructors in charge, according to the performance of the individual student, subject to such general restrictions as may be imposed by the department and by the Committee on Courses of Instruction. The work of the student in such an honors course may consist of additional work in connection with regular courses of instruction, or may be independent of such courses.

It will be quite possible, though perhaps not often desirable, for a student who is enrolled as a candidate for honors in one department to be transferred to another. In order to make such a change, it will be necessary for him to secure the consent of the department to which he desires to be transferred. If therefore, at the beginning of his junior year, a student who is eligible for candidacy has not yet finally determined upon his major subject, he should enroll with the department to which he is most inclined at the time, understanding that at the beginning of any subsequent term he may make a change in accordance with the conditions just stated.

Before Commencement, a department satisfies itself by means of a general final examination, or in such other manner as it may deem best, of the fitness of each candidate for honors at graduation. Candidates who, in the judgment of their departments, display marked superiority in their major subject, receive the special distinction of highest honors. The list of students upon whom honors and highest honors are conferred, with mention of their major department, appears in the Annual Commencement Programme.

COLLEGE OF COMMERCE
UNDERGRADUATE CURRICULUM

The course leads to the degree of Bachelor of Science and is mainly devoted to elementary and technical studies as a broad preparation for business life. While some specialization is provided for in the senior year, those who wish to prepare for some particular commercial career are advised to extend their course beyond the usual four years. Courses have been outlined as a preparation for the work of the certified public accountant, of the actuary, for the consular service, for banking, for the real estate business, and for railroading. Graduation from this college requires the completion of 124 units of college credit (with 124 grade points), of which 64 units constitute the amount required in the University for the junior certificate.
Announcement of the Southern Branch

The requirements for the junior certificate are as follows:

**Subject A: English Composition. Examination required of all.**

**Foreign Languages—**
Students must pass an examination designed to test their ability to read one of the following languages:
- Greek, Latin, German, French, Spanish, Italian,
- Russian, Japanese, or Chinese.

**History or Political Science—**
- History 4A-4B, or History 8A-8B, or Political Science 1A-1B, or any combination of the foregoing courses

**6 units**

**Geography—**
- Geography 1A (Physical Geography) and Economics 3A (Commercial Geography)

**7 units**

**Natural Sciences**

**9 units**

**Mathematics—**
- Mathematics B (Plane Geometry)
- Mathematics 1 (Advanced Algebra)
- Mathematics 2 (Mathematical Theory of Investment)

**3 units**

**Economics—**
- Economics 1A-1B

**6 units**

**Military Science, Physical Education, Hygiene**

**9 units**

**Electives**

**18 units**

**Total**

**64 units**

The course in science may be taken in high school. The course in algebraic theory must be studied in high school, as this subject is not offered in the University except during the summer sessions. The specified work in history, political science, geography, economics and in the mathematical theory of investment must be taken in college. Students are warned that the college courses are advanced in character, and they are earnestly advised to lay a solid foundation in high school for their college work.

**COLLEGE OF AGRICULTURE:**

The prospective student should consult the requirements and recommendations for matriculation, as stated on page 21. **Failure to take the proper subjects in high school may delay graduation.**

More detailed information regarding instruction in the College of Agriculture than is given below is contained in the Prospectus of the College of Agriculture. This may be obtained by applying to the Dean of the College of Agriculture, Berkeley, California.

---

* Date of next examination, Thursday, September 8, 1921, 2:30 p.m. For regulations governing this requirement see General Regulations of the Faculties.

† The statements on pages 48—49 refer to curricula in the College of Agriculture other than in Forest Utilization. For the curriculum in Forest Utilization, see page 47.
REQUIREMENTS FOR THE DEGREE OF BACHELOR OF SCIENCE

(1) Four years of residence.

(2) One hundred and thirty semester units of university work (with 130 grade points), in addition to matriculation, and in addition to Subject A.* These 130 units must be chosen in accordance with the provisions set forth hereinafter. Ordinarily at least 64 units will be completed during the freshman and sophomore years, 6 units during the six weeks summer practice course, and at least 60 units during the junior and senior years.

(3) Including work presented for matriculation,† all students must have completed—ordinarily before the end of the sophomore year—English, 12 units; mathematics, including trigonometry, 12 units; physics, 3 units; history or economics, 9 units. Students without credit for matriculation physics may take the equivalent course in the summer session; or they may take Physics 2A in the first half-year provided they have credit in trigonometry or are taking it concurrently. If the student has entered with two years each of English and mathematics and one year of history he must complete in the University, six units each of English, mathematics, and history or economics.

(4) A summer course in special work connected with the proposed major subject. This course is taken immediately before or immediately following the junior year, as may be arranged by the adviser in the major subject concerned. The course is six weeks in length; credit, 6 units. Information concerning the summer practice work may be obtained from the adviser. Students in certain major subjects may offer practical experience in lieu of the summer practice course, but no credit in units will be granted for the practice course in such cases. Such substitution must be approved by the major subject adviser.

(5) The following courses must be completed before graduation:

- Botany 3 ................................................. ½ year
- Chemistry 1A-1B ..................................... 1 year
- ‡Drawing C ............................................. ½ year
- Geology 1A ............................................. ½ year
- Hygiene .................................................. ½ year
- ‡Mathematics C ...................................... ½ year
- Military Science ..................................... 2 years
- Physical Education .................................. 2 years
- Zoology 1A ............................................. ½ year

* An examination in Subject A: English Composition is required of all undergraduate entrants at the time of their first registration in the University. Date of next examination, Thursday, September 8, 1921, 2:30 p.m. For further regulations concerning Subject A see General Regulations of the Faculties.

† One year of high school work in a given subject is here counted as the equivalent of three units of university work.

‡ Students with matriculation credit in these subjects are not required to complete these courses.
Announcement of the Southern Branch 45

And two or more of the following four subjects, according to the requirements of the major subject chosen by the student:

- Agricultural Chemistry 1 and 2 .......... 1 year
- Bacteriology 1 ........................................ 1 year
- Genetics 1 ............................................ 1 year
- Soil Technology 1 ..................................... 1 year

(6) Among the 60 units of work normally taken in the junior and senior years there must be 36 units in upper division courses (i.e., those numbered 100 to 199), at least 26 units of which must be in the Department of Agriculture.

(7) Each student should select a major subject not later than the middle of the sophomore year. There are six major subjects in the College of Agriculture: agricultural science, agronomy, animal industries, forestry, horticulture, and landscape gardening. In each major subject certain prescribed courses will be required in addition to the general college requirements (Nos. 1-6) listed above. These are:

I. Agricultural Science. Agricultural Chemistry 1; Bacteriology 1; Botany 5; Genetics 1; at least one upper division course in botany, zoology, or chemistry, and a thesis or advanced course in an agricultural science.

II. Agronomy. Agricultural Chemistry 1 and 2; Bacteriology 1; Botany 5; Civil Engineering 1A or 1E; Genetics 1; Soil Technology 1; farm mechanics, 3 units; Farm Management 118; Irrigation Practice 120 (Irrigation 113 prerequisite); animal husbandry, 3 units; pomology, 3 units; agronomy, 7 units, including Agronomy 130. Recommended courses fulfilling the above options—Animal Husbandry 105 or 106; Pomology 101 or 103, Agronomy 106, 107, 120, Farm Mechanics 101 or 103.

III. Animal Industries. Twenty-six units of upper division courses in animal husbandry, farm machinery, dairy industry, poultry husbandry, veterinary science (a thesis of four units may be included). At least two semesters residence at the University Farm.

IV. Forestry. Civil Engineering 1A-1B; 6 units of economics; Forestry 10, 20, 99A, 99B; 20 units in upper division forestry courses. For Forest Utilization, see Announcement of Courses in Forestry.

V. Horticulture. Farm Mechanics 101 or 103 and 104; Civil Engineering 1B; Entomology 124; Irrigation 113; Irrigation Practice 120; Plant Pathology 120; Pomology 101, 103. At least six units of economics, political science or rural institutions. At least two of the following courses: Citriculture 101; Olерiculture 103 or 104; Pomology 106, 120; Viticulture 116; Landscape Gardening 101.

VI. Landscape Gardening. Drawing 3ABC; Soil Technology 1; Genetics 1; Civil Engineering 1B and 28 units upper division courses in landscape gardening, with thesis.
During the freshman year, the following schedule will normally be followed; but for those who upon entrance to the University have definitely selected their major subject this programme may be modified with the approval of the major subject adviser. It is not necessary for students to choose the major subject in the freshman year, but they may do so.

Total: 18

**SOPHOMORE, JUNIOR, AND SENIOR YEARS**

The schedule for the sophomore, junior and senior years is determined by the major subject requirements, as listed above, supplemented with optional courses selected by the student with the advice and consent of the major subject adviser.

**APPROVAL OF STUDY-LISTS AND THESSES**

The study-lists of freshmen and sophomores must bear the written approval of a member of the Lower Division Advisory Committee if the student has not yet chosen his major subject. If the major subject has been selected, study-lists must be initialed by the major subject adviser. Study-lists must then be countersigned by the Secretary of the College of Agriculture.

The study-lists of juniors and seniors must first be endorsed by the major subject adviser and then be countersigned by the Director of Resident Instruction of the College of Agriculture.

If thesis work is taken, it will be arranged with an instructor in the major subject. The student will submit his plan of thesis work to the Director of Resident Instruction at the beginning of the senior year, and upon approval by the Director, will file his thesis card with the secretary of the college. For further procedure follow the rules governing theses as stated in the Circular of Information.

* Recommended, but not required for graduation.
Announcement of the Southern Branch

AMOUNT OF WORK

Regular students who are free from deficiencies in their university work may register for not to exceed 18 units of new work. Regular students with deficiencies will be limited to 16 units, including repeated work. Students with deficiencies taking the prescribed courses in physical education, hygiene, or military science may, with the approval of the Study-Lists Committee, add these courses to the maxima as stated herein.

CURRICULUM IN FOREST UTILIZATION

Matriculation requirements are the same as for the curricula in engineering. See Admission to the University: Requirements and Recommendations for the various curricula.

Full details regarding the work in forestry are given in the Announcement of Courses in Forestry, which may be obtained from the Division of Forestry, University of California, Berkeley, California.

*Subject A: English Composition is required of all undergraduate entrants at the time of their first registration in the University. Date of next examination, Thursday, September 8, 1921, 2:30 p.m. For further regulations concerning Subject A see General Regulations of the Faculties.

† Three units of the shop work requirement must be taken in Summer Session. (Six weeks, 4 days of 6 hours each; 144 hours.) Credit, 3 units.

‡ May be any two of 3A, 3B, 9A, 9B.
**Announcement of the Southern Branch**

**COLLEGE OF MINING**

Note.—Students in the College of Mining may elect one of four curricula: (1) Mining Engineering; (2) Metallurgy; (3) Economic Geology; and (4) Petroleum Engineering. Each is a four-year curriculum and leads to the degree of Bachelor of Science in mining with the completion of 147 units of work.

These four curricula have a common requirement for the first year, after which the student is expected to elect the one in which he wishes to specialize. In the second, third and fourth years, the courses listed at the beginning of the column are common requirements for all students in the College of Mining. In addition to these, each student is required to take the courses listed under his particular option.

COLLEGE OF CHEMISTRY

Preparation.—Students who propose to enter the College of Chemistry should include in their high school programmes, physics (one year), chemistry (one year), mathematics, including trigonometry (three years), German or French (two years) and geometrical drawing (one year). Without this preparation it will be difficult or impossible to complete the required curriculum within four years. It should be noted that

* An examination in Subject A: English Composition is required of all undergraduate entrants at the time of their first registration in the University. Date of next examination, Thursday, September 3, 1921, 2:30 p.m. For further regulations concerning Subject A see General Regulations of the Faculties.

† Any four units in this group may be elected.
the equivalents of high school physics and chemistry are given in the University during the summer session only, not during the fall or spring sessions.

Electives.—The total number of units required for graduation is 136 (with 136 grade points). Of the elective units, 35 must be approved electives in chemistry or allied subjects; the remainder are free electives, but may not include the preparatory subjects listed above.

Foreign Language Requirement.—A satisfactory reading knowledge of scientific German before the junior year is essential. The student is urged also to acquire a reading knowledge of French.

Honors Students.—Students who in the first two years of their college work have received the grade of A or B in 48 units of accepted courses will receive honorable mention with junior standing. These students are entitled and urged to enter as candidates for honors. The Committee on Candidates for Honors of the College of Chemistry will determine what students shall remain in the honors group and what students shall be promoted thereto. Candidates who, in the judgment of the faculty, display marked superiority in scholarship receive the special distinction of highest honors. The list of students upon whom honors, and highest honors, are conferred, with mention of their major department, appears in the annual Commencement Programme. Further information for honors students will be found in the Announcement of Courses.

Courses in Chemical Technology: Students in the College of Chemistry who wish to specialize in Chemical Technology must take all the prescribed courses in the College of Chemistry and will be expected to include in their electives for their freshman year Mechanics 8b.

* An examination in Subject A: English Composition is required of all undergraduate entrants at the time of their first registration in the University. Date of next examination, Thursday, September 8, 1921, 2:30 p.m. For further regulations concerning Subject A see General Regulations of the Faculties.
CURRICULUM FOR NURSES

In November, 1917, the Academic Senate established a curriculum for the training of nurses and appointed a committee to administer the curriculum. The curriculum is designed to meet the need for scientifically trained women to fill administrative and teaching positions in schools of nursing and to go into the many branches of public health work.

This course leads to the B.S. degree and a certificate in nursing. The first two and a half years are spent in the departments at Berkeley, then two years at the University Hospital School of Nursing in San Francisco, and the final half-year again in the departments at Berkeley.

The course as prescribed by the University of California follows:

COURSE FOR THE FIRST TWO AND ONE-HALF YEARS AT THE UNIVERSITY

Required: matriculation in the College of Letters and Science, including high school chemistry and either trigonometry or physics.

A minimum programme of 80 units must be completed in the first two and a half years. The Junior Certificate requirement in the College of Letters and Science must be met at the end of two years, during which period the student’s study card is subject to the approval of that college. The following special subjects must be included in the work of the first two and a half years:

<table>
<thead>
<tr>
<th>Subject</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>Chemistry (1A-1B)</td>
<td>10</td>
</tr>
<tr>
<td>Anatomy (102)</td>
<td>4</td>
</tr>
<tr>
<td>Bacteriology (1)</td>
<td>4</td>
</tr>
<tr>
<td>Dietetics (Household Science 102)</td>
<td>4</td>
</tr>
<tr>
<td>Hygiene (2 and 3)</td>
<td>5</td>
</tr>
<tr>
<td>Physiology 1</td>
<td>4</td>
</tr>
<tr>
<td>Zoology (1A)</td>
<td>5</td>
</tr>
<tr>
<td>Economics (1A-1B; 180-181)</td>
<td>12</td>
</tr>
<tr>
<td>Psychology 2A (General Psychology)</td>
<td>3</td>
</tr>
</tbody>
</table>

Students in this curriculum should plan to spend ten weeks of their preparatory period at the University Hospital during the summer vacation following their first year at the University. This will not only afford the student an opportunity to learn whether she cares to continue the study of nursing and for what particular branch of nursing she wishes to prepare, but it will enable the faculty to judge of her qualifications for the profession of nursing.

† Students entering this curriculum may find it necessary to remain for three years in the departments at Berkeley in order to complete the special requirements as well as the requirements for the Junior Certificate. Such students will complete a minimum programme of 90 units (including 18 upper division units) in the departments at Berkeley and will receive the bachelor’s degree after completing the additional years at the School of Nursing.
SCHOOL OF ARCHITECTURE

The requirements for admission to the technical course in architecture are junior standing (64 units) in the College of Letters and Science and the following specific courses at the University. The matriculation requirements are set forth in earlier pages of this circular. If the course is to be completed in six years these courses must be completed in the lower division: Mathematics 3A–3B, 4A–4B; Graphic Art 14 (two semesters), 127; Drawing 3A, 3B, 3C; Physics 1A–1B; Civil Engineering 8; Architecture 5A–5B, 11, 12A–12B, 13A–13B.

Note.—Students who do not wish to follow the technical curriculum in architecture may choose architecture as a major subject in the College of Letters and Science.

</table>

The foregoing curriculum leads to the Degree of Bachelor of Arts at the end of the fourth year of undergraduate work, and to the degree of Graduate in Architecture at the end of the second graduate year.

The requirement for entrance to the School of Architecture (as distinguished from the Department of Architecture) is the A.B. degree with a major in architecture or the equivalent of this. The degree of Graduate in Architecture is conferred upon students in the School of
Architecture who shall have remained in residence at least one year after obtaining the A.B. degree and who shall have satisfactorily completed the following courses of study:

Architecture 5ABCDE, 11, 12AB (six half-years), 13AB (three half-years), 14AB (four half-years), 101AB, 102AB, 105CDEF, 106ABCD, 108AB, 203AB, 206EF, 299AB, 209AB, 204, 216.

Civil Engineering 1A, 8, 107EF, 108f, 116, 117, 118AB.

Drawing 3ABC, 110; Graphic Art 14, 127, 128AB.

Electives.

To obtain the degree of Graduate in Architecture in the shortest possible time, students will find it necessary to anticipate the required studies as much as possible before obtaining the A.B. degree.

The division of the classes in architectural design is based upon a system of progressive values, instead of half-years, as follows:

**Stage I**—(Architecture 101A, Elementary Design) 3 projects during the half-year:

First Grade ......................................................... 12 values  
Second Grade ...................................................... 8  
Third Grade ......................................................... 4  
Fourth Grade ....................................................... 0  

Esquisse-Esquisse (3 required each half-year out of 8 programmes):

First Grade ......................................................... 12 values  
Second Grade ...................................................... 2  

24 values required.

**Stage II**—(Architecture 101B, Elementary Design) 3 projects during the half-year:

First Grade ......................................................... 12 values  
Second Grade ...................................................... 8  
Third Grade ......................................................... 4  
Fourth Grade ....................................................... 0  

Esquisse-Esquisse (3 required each half-year out of 8 programmes):

First Grade ......................................................... 4 values  
Second Grade ...................................................... 2  

24 values required.

**Stage III**—(Architecture 102A–102B) 3 projects each half-year:

First Grade ......................................................... 12 values  
Second Grade ...................................................... 8  
Third Grade ......................................................... 4  
Fourth Grade ....................................................... 0
Announcement of the Southern Branch

Esquisse-Esquisse (3 required each half-year out of 8 programmes):
First Grade .......................................................... 4 values
Second Grade ....................................................... 3
48 values required.

Stage IV—(Architecture 203A–203B Planning and Composition) 3 projects each half-year:
First Grade .......................................................... 12 values
Second Grade .......................................................... 8
Third Grade ............................................................ 4
Fourth Grade .......................................................... 0

Esquisse-Esquisse (3 required each half-year out of 8 programmes):
First Grade .......................................................... 4 values
Second Grade .......................................................... 2
48 values required.

Stage V—(Architecture 204, Advanced Design) 3 projects during the half-year:
First Grade .......................................................... 12 values
Second Grade .......................................................... 8
Third Grade ............................................................ 4
Fourth Grade .......................................................... 0

Esquisse-Esquisse (3 required each half-year out of 8 programmes):
First Grade .......................................................... 4 values
Second Grade .......................................................... 2
24 values required.
Total 168 values required.

No student may count toward his total values, more than 4 values on Esquisse-Esquisse each half-year. No excess values in a given stage may be applied to credit in a higher stage. In stages IV and V a medal may be granted for a specially fine project, but no additional value is attached thereto. Projects which are handed in late receive the grade next below their rank.

Students who have fulfilled all other requirements of the curriculum of the School of Architecture are eligible to begin the thesis for the degree of Graduate in Architecture on, and only on, the completion of one hundred and sixty-eight values, regardless of the time covered, provided that the minimum time is two and one-half years after having completed the requisite preparatory work for Architecture 101.

Students may begin the thesis and seminar required for the degree of Graduate in Architecture upon the completion of one hundred and sixty-eight values (with above minimum proviso), whether it be at the end of a half-year or not, and present the work at the end of a time equal to a regular half-year.
SCHOOL OF EDUCATION

The term "School of Education" designates the professional courses intended:

1. For students preparing to become teachers in secondary schools and colleges;
2. For graduates of normal schools, who are making further preparation for teaching in elementary schools;
3. For students preparing to engage in school administration or to teach in normal schools or in university departments of education or to carry on research in the field of education.

Admission.—To be admitted to the School of Education students must have junior standing and must normally have completed the requirements for the Junior Certificate.

Length of Professional Courses.—The minimum time requirement for the recommendation for the regular high school certificate is three years; for the higher professional degree, four years. Seniors and graduates applying for admission to the School of Education will be credited with one or two years respectively, subject to the foregoing requirements. For certain exemptions see the regulations of the State Board.

For further information concerning the School of Education see the annual announcement of the school, to be obtained from the Recorder of the Faculties.

SCHOOL OF JURISPRUDENCE

The following persons will be admitted without examination, as candidates for the degree of Juris Doctor:

A. To the Three-year Curriculum:
(1) Graduates of any college of the University of California, and of other colleges and universities of approved grade;
(2) Students of the University of California who have attained at least senior standing in the College of Letters and Science or in the College of Commerce.

B. To the Four-year Curriculum:
Students eligible to the Three-year Curriculum and students of the University of California who have attained at least junior standing in the College of Letters and Science or in the College of Commerce.

For further information see the annual announcement of the school, to be obtained from the Recorder of the Faculties.
MEDICAL SCHOOL

Matriculation.—For matriculation in the Medical School—the five years' course leading to M.D.—in and after 1922 the student must have attained senior standing in the College of Letters and Science.*

For those who enter the Medical School in or after August, 1923, senior standing in the College of Letters and Science requires the attainment of the junior certificate (see this circular, under College of Letters and Science), and the subsequent completion of at least 27 units of work of which 18 shall normally be in upper division courses. The total number of college units presented must be at least 94. On the completion of the first year's work in the Medical School, the degree of A.B., College of Letters and Science, will be granted.

In addition to the above general requirements, the student must give evidence of sufficient training in physics, chemistry, biology, English literature and composition to enable him to pursue with profit the curriculum of the school and must possess a reading knowledge of French or German. The following courses now offered represent the minimum of satisfactory preparation in the subjects named (numbers refer to the Announcement of Courses for 1920–21): English 1A–1B (6 units); Chemistry 1A–1B, 8, 9; Physics 2A–2B and 3A–3B; Zoology 1A–1B. Ten units credit in French or German will be accepted as fulfilling the requirement of a reading knowledge in these subjects.

By a resolution of the Academic Senate the faculty of the Medical School is authorized to refuse admission to applicants with a low record in the required academic subjects.

The State law governing the practice of medicine in California prescribes that every person before practicing medicine or surgery must produce satisfactory testimonials of good moral character and a diploma issued by some legally chartered medical school, the requirements of which shall have been at the time of granting such diploma in no particular less than those prescribed by the laws of the State, and which shall have received the approval of the Board of Medical Examiners that year. The requirements for matriculation in the University of California Medical School as above stated cover also the requirements of the Association of American Medical Colleges, provided that the high school programme includes the subjects listed in the following paragraphs.

* Note.—Students who enter the Medical School in August, 1922, will be matriculated with the above requirements or may present at least 94 units of work in the College of Letters and Science, including normally 18 units of upper division work taken in the third year, according to the plan outlined in the 1919–20 Circular of Information, pages 54–56 under caption Premedical Curricula. On completion of the first year's work in the Medical School the degree of A.B., College of Letters and Science, will be granted.

Students entering the Medical School in August, 1921, may follow the 94-unit plan, receiving the A.B. on the completion of the first year's work in the Medical School, or the 64-unit plan (see 1919–20 Circular of Information, pages 55–56), omitting the bachelor's degree.
**Premedical Curriculum—Three Years**

The following tabulated curriculum represents the most satisfactory arrangement of work to meet the medical prerequisite courses, as prescribed for those entering the Medical School in or after August, 1923. The student should, however, make certain that his course is so arranged as to satisfy the junior certificate and other requirements of the College of Letters and Science so that his entrance to the Medical School and the attainment of his A.B. and M.D. may not be delayed. Certain variations in the chronological arrangement may be necessitated if the high school course include the minimum of foreign language work.

This curriculum assumes the completion of the following subjects in the high school: English, three years; history, one year; mathematics, two years (algebra and plane geometry); chemistry, one year; physics, one year; foreign language (French or German), 2 years. The junior certificate requirements will be more easily met if foreign language study has been pursued four years in the high school.

**Medical Curriculum—Five Years**

In the fifth or intern year the student is required to act as intern in an approved hospital or as special worker in a department of the Medical School. By arrangement with the department concerned this may be done at any time after the completion of the first year and a half of medical work.

For further information see the annual announcement of the Medical School, to be obtained from the Secretary of the Medical School, Parnassus and Third avenues, San Francisco.

**The Junior and Senior Years**

For information concerning the work of the Junior and Senior years in the various schools and colleges of the University address the Recorder of the Faculties, University of California, Berkeley, California, indicating the particular school or college in which you are interested.

* See requirements for the Junior Certificate, College of Letters and Science.

JUNIOR HIGH SCHOOL COURSE

Graduates of the Elementary Course or of Junior Colleges will be certified to the County Boards of Education for their Junior High School Certificate upon meeting the following requirements:

1. The completion of a third year of work of college grade consisting of 32\(\frac{1}{4}\) semester hours.

2. The completion, by the end of the third year, of two academic majors of 22 units each—at least 10 of these units to be of college grade.

3. The completion of 26 units of professional work to be distributed as follows:

<table>
<thead>
<tr>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>(1) Education L2A (Introductory Psychology)</td>
</tr>
<tr>
<td>(2) Education L25 (Educational Sociology)</td>
</tr>
<tr>
<td>(3) Education E59 (Junior High School Methods)</td>
</tr>
<tr>
<td>(4) Education E65 (School Administration)</td>
</tr>
<tr>
<td>(5) A 2-unit Teachers' Course for each of two majors elected*</td>
</tr>
<tr>
<td>(6) Practice Teaching J11A and J11B</td>
</tr>
</tbody>
</table>

4. The completion of 6 units of elective work to be chosen with the advice and upon the consent of the adviser, the latter to be guided by the student’s needs.

* Teachers' courses for junior high school majors must be elected from the following group of courses:

- Education E68. General Science for Junior High School
- English E61. Junior High School English
- History E60. Social Sciences for Junior High School
- Mathematics E62. Junior High School Mathematics
- Romance Languages (as prescribed by department)
IV

ART COURSES

The department of Art offers four lines of work, any one of which may be of major interest in a four years’ professional course leading to certification.

A. Fine Arts Education.
B. Industrial Arts Education.
C. Drawing, Painting, and Illustration.
D. House Design and Furnishing.

A three-year course in A, B, C, or D leads to an elementary certificate. A four-year course in A or B leads to a secondary certificate.

REQUIRED COURSES

The following courses are required of all who specialize in Art: Design 2A, 2B, 32A; Drawing and Painting 4B; Art Appreciation and History 1A, 1B.

A. Fine Arts Education.

General courses: Psychology and Education (12); Physical Education (4); Theory and Practice of Teaching (24); Assemblies (1½); free electives or general subjects leading to certification (45).

Fourth year: Students working for secondary certificate elect 18 units from the following: 52A, 56, 57B, 58B, 75B, 81, 84A, 84B, 93.

B. Industrial Arts Education.

General courses: Same as Fine Arts Education.

Fourth year: Students working for a secondary certificate elect 18 units from the following: 8B, 39B, 52A, 58B, 69B, 79B, 81, 89A, 98.

C. Drawing, Painting, and Illustration.

Students working for certification are required to take 53 units of the following technical courses and 50½ general subjects.

D. House Design and Decoration.

Students working for certification are required to take 53 units of the following technical courses and 50½ general subjects.

COMMERCE COURSES

The Department of Commerce offers two types of professional courses:

A. A two-year course leading to the Junior Certificate.
B. A four-year course leading to the Secondary Certificate in Commerce.

Business experience: Students entering course B should have had at least one year’s successful business experience. One summer assignment in placement training under the supervision of the staff in Commerce will fulfill this requirement.

HOME ECONOMICS COURSES

The Department of Home Economics offers three types of professional courses:

A. A two-year vocational course leading to the Secondary Home Economics Certificate.*

B. A three-year combination course leading to two certificates:
   (a) Elementary Home Economics;
   (b) Elementary.

C. A four-year course leading to the Secondary Home Economics Certificate. The first three years' work in this course leads to:
   (a) Elementary Home Economics Certificate;
   (b) Junior High School Home Economics Certificate.

Technical courses required of all who specialize in Home Economics:
Home Economics 1A, 9A, 49.

Required courses:

A. Two-year course:
   General courses: Education 2A, 11, 12, 28, Education 25, Commerce 1A,
   Political Science 8, English 1A.
   Technical courses: Art 2A, 26A; Chemistry 2A, 2B, 10; Biology 21 or 1,
   10, or Physical Education 9; Physics 11; Home Economics 2, 25, 10,
   43; Practice Teaching H10A, H60A, H60B, 34.

B. Three-year course:
   General courses: Education 2A, 11, 12, 28; History 1B; Mathematics 10;
   Geography 1A; English 12; Commerce 1A; Physical Education 10, 11;
   Biology 12 or 11; Recreation; Electives; Practice Teaching 10A.
   Technical courses: Art 2A, 26A, 53A; Chemistry 2A, 2B, 10; Biology 10,
   11; Physical Education 9; Home Economics 1B, 58, 9B, 59, 33, 47;
   Practice Teaching H10A, H10B.

C. Four-year course:
   Elementary Home Economics and Junior High School (three years).
   General courses: Education X, 2A, 11, 12, 28; History electives; Eng-
   lish 1A; English electives (6 units); Commerce 1A; Assembly.
   Technical courses: Art 2A, 26A, 53A; Chemistry 2A, 2B, 10; Biology 21,
   1, 10; Physical Education 9; Physics 11; Home Economics 1B, 25,
   58, 9B, 33, 69, 47; Teaching H10A, H10B, H11A, H11B.

Fourth year:
   General courses: Education 4, Education elective, 1A; Political Science 8.
   Technical courses: Group I—Chemistry 11; Home Economics 83 or 54,
   85, 75, 78; Practice Teaching H60A, 60B; Group II—Chemistry 11;
   Commerce 54; Home Economics 83, 84, 85; Practice Teaching H60A,
   60B; Group III—Art 53B; Commerce 54; Home Economics 75, 78,
   77; Practice Teaching H60A, H60B; free elective.

*This course is open only to women who have had at least four years' schooling beyond the elementary school, or its equivalent in private instruction, and have had at least four years' experience after the age of eighteen in managing a home and performing all the duties of a housekeeper. The course conforms to the requirements of the State Board of Education, as specified in Bulletin 10.

GENERAL REGULATIONS OF THE FACULTIES CONCERNING STUDENTS IN THE ACADEMIC DEPARTMENTS

Following are certain general regulations governing the academic departments.

MILITARY SCIENCE, PHYSICAL EDUCATION AND HYGIENE

All undergraduate students shall, upon admission to the University, report immediately to the proper officers for enrollment in military science, physical education, and hygiene, following the Freshman Circular or the announcements which may be posted on the University bulletin boards. A deposit (thirty dollars) must be paid at once to the Comptroller of the University to cover the cost of the uniform and textbook to be used in military courses. Students shall list these courses upon their study cards with other University courses.

Petitions from students for excuse from, or deferment of, military science, physical education, or hygiene, filed by the petitioner after the expiration of two weeks following the date of the student’s registration, will not be received except for illness or physical disability occurring after such date. Students who petition to be excused from these subjects or from any of them should nevertheless present themselves to the proper instructors for enrollment during the pendency of petitions.

In case a student subject to these requirements shall list the prescribed course or courses on his study card and thereafter without authority shall fail to appear for work in such course or courses, after a reasonable time, the neglect shall be reported to the Recorder, who, with the approval of the Director, shall forthwith withdraw the study card of the student. When a student’s study card is withdrawn he is thereby suspended from participation in all University exercises. Of such suspension it shall be the duty of the Recorder to inform immediately the Scholarship Committee in charge of the students’ programme. With the approval of the professor in charge of the work, the Recorder is authorized to reinstate the student, and shall notify the Scholarship Committee of such reinstatement.

[A circular containing information concerning the requirements in military science, physical education, and hygiene, including a statement of the grounds upon which students may be excused from this work, may be obtained from the Recorder.]
SUBJECT A: ENGLISH COMPOSITION

All intrants to the Southern Branch must, at the time of their first registration in the University, present themselves for examination in Subject A: English Composition. Further provisions are as follows:

(1) Students who pass Subject A with grade A or B are not required, but are advised, to continue their training in oral and written composition.

(2) Students who pass Subject A with grade C or D are required to take English 1x during their freshman or sophomore year, and junior standing will not be granted them until they have passed the course. (3) Students who receive grade E or F in Subject A are conditioned in the subject, and they will not be granted junior standing until they have passed the examination. They will be required to take, without credit, a course in English composition, especially designed to meet their needs, and calling for one period of class instruction per week, together with written exercises and conferences, until they have passed in Subject A. Those who pass with grade C or D will not be granted junior standing until they have fulfilled the requirements under 2 above. No student who has not passed Subject A will be admitted to any university course in oral or written composition other than the course described above, except that foreign students may be permitted to elect a course especially designed for them. (4) Intrants who fail to present themselves for the examination at the time appointed will be charged a fee of two dollars when they enter the examination for the first time. (5) For students who enter with advanced standing Subject A is a requirement for junior standing. To those who pass with grade C or D, English 1x is prescribed. (6) Failure in the examination does not prevent admission to the University. (7) The examination will be given at the University, at the opening of the fall and spring sessions. (See announcement of entrance examinations.)

The examination will be composed, set, and judged under the direction of the Committee on Subject A, and its requirements and penalties will be enforced by the deans and other proper authorities of the several colleges, including the study lists committees.

GRADERS OF SCHOLARSHIP; GRADE POINTS

Beginning August, 1921, the results of examinations, together with term work when a record of the latter is kept, will for all undergraduate students be ranked and be reported to the Recorder of the Faculties in six grades, four of which will be passing grades, as follows: A, excellent; B, good; C, fair; D, barely passed. Grade D corresponds to the low three of the grading system used before August, 1921,* sometimes stated as

* Before August, 1921, scholarship grades were as follows: 1, Marked excellence; 2, thoroughly satisfactory; 3, passed; 4, conditioned; 5, failure.
three minus. Courses in which students obtain grade E (conditioned) will not be credited to them, except upon the condition of passing a re-examination. Grade F denotes failure, and the necessity of repeating not only the examination of the course but also the term work. The report in case of absence from the required examination, or of failure to perform any of the allotted tasks in a given course, is incomplete.

Grade points, or quality units, will be assigned as follows: Grade A, three points per unit; B, two points per unit; C, one point per unit; D, no points. Conditions and failures removed will be credited without grade points, irrespective of the grade assigned on repetition or re-examination.

To qualify for the bachelor’s degree in the College of Letters and Science, in the College of Agriculture, in the College of Commerce, or in the College of Chemistry, in or after May, 1923, the candidate must have attained at least as many grade points or quality units as he has attained time units or quantity units in all work undertaken by him in the University of California in and after August, 1921. If, for example, he has undertaken 60 units, he must have 60 grade points; if 90 units, he must have 90 grade points; if 124 units, 124 grade points, and so on.

In the colleges of Mechanics, Mining and Civil Engineering the bachelor’s degree is conferred upon the completion of the requisite number of units of work in the courses required for the degree, without regard to the number of grade points or quality units attained by the candidate.

The reports in January, as in June, are final reports, not provisional reports, with the following exception: if the organization of the work permits and if the deficient student retains his status in the University, a grade E or an incomplete in the first half of a year course (a "double-number" course) may, at the discretion of the instructor in charge, be removed upon the basis of the regular work and examinations of the second half-year. In every such case the student should apply promptly to his instructor for advice. It is not to be assumed that a passing grade in the work of the second half-year removes a deficiency in the first half-year.

The entrance examinations are ranked and reported to the Recorder in six grades, corresponding with the six grades used for reporting upon university courses. In the case of entrance examinations, failure to pass is indicated by grade E or grade F.

**CONDITIONS AND FAILURES**

For the removal of conditions, the student has the privilege of taking the regular midyear or annual examinations in the subjects in which he is conditioned. Examinations may be held at other times only by the special permission of the Faculty and on payment of a fee of five dollars.
Every undergraduate student is required each half-year either (1) to pass in all courses registered for the half-year; or (2) to pass in at least ten (10) units of duly registered work; or (3) to pass with grade A or B in courses aggregating at least eight (8) units of duly registered work. Any student who fails to satisfy this requirement will be dropped from the roll. Independently of this rule, any student who neglects any part of the work for which he is registered (regardless of the number of units passed) may be dropped from the roll by faculty action. Any student dropped from the roll may be reinstated, after an interval of at least one half-year, for reasons satisfactory to the Committee on Disqualified Students. It is therefore absolutely necessary for any disqualified student who proposes to return to the University to communicate without delay with this committee, through the Recorder, in order that the question of reinstatement may be considered by the committee and in order that the student may have ample opportunity to prepare for examinations or other tests which the committee may impose.

Any student who is reported as having failed in an examination, or who, after being conditioned, does not pass the reexamination for the removal of the condition, will be required to repeat every such deficient subject with the class that next takes it; unless, on recommendation of the officer of instruction in charge, the Faculty shall permit him to review a subject in which he is thus deficient with the assistance of an acceptable private tutor; in which case he will be excused from attending the recitations, but will be required to take the regular examinations at the end of the year or half-year.

Deficiencies in military science and physical education have the same effect as deficiencies in other subjects.

A matriculation deficiency in a subject continued in the University, in which the deficient student attains a rank of B, may be removed by the proper faculty on the recommendation of the officer of instruction in charge of the subject, with the approval of the chairman of the department. Students, however, are cautioned not to assume in advance that this will be done. In some departments no matriculation credit is given except upon matriculation examination.

**Units of Work and Credit; Study List Limits**

Both matriculation and university work are measured in "units." In the University a unit of registration is one hour of a student’s time at the University weekly, during one half-year, in lecture or recitation, together with the time necessary in preparation therefor, or a longer time in laboratory or other exercises not requiring preparation. Credit for 120, or more, units distributed according to the requirements of the college in which the student is enrolled is necessary for a degree.
In the colleges of engineering regular students who are free from deficiencies in their university work may register for not more than 19 units of new work; in the College of Agriculture the limit is 18 units. Regular students with deficiencies will be limited to 16 units, including repeated work. Freshmen and sophomores who are taking the prescribed courses in physical education, hygiene, or military science may, with the express approval of the Study Lists Committee, add these courses to the maxima as stated herein. Beginning August, 1921, in the College of Letters and Science students may present study lists aggregating 12 to 16 units per semester without special permission. During the first semester in residence at the University no student will be permitted to take more than 16 units of work. After one semester in regular residence (i.e., with a study list of at least 12 units) a student may receive permission to take not more than 18 units per semester, provided he has attained an average of at least second grade for the preceding semester. Prescribed courses in military science, physical education, and hygiene and repeated courses are to be counted in reckoning study list totals. Any work undertaken in the University or elsewhere with a view to credit toward a degree must be included in the maxima, as above. Work reported by the instructors as "incomplete" is regarded as deficient work.

Special students have free election, subject to the requirement that they confine their attention to some special study and its related branches.

Limited students have all their studies elective, but may take not more than thirteen units a week.

Special Students

Special students have free election, subject to the requirements that they confine their attention to some special study and its related branches.

Leave of Absence and Honorable Dismissal

Prolonged leave of absence must be sought by written petition to the proper Faculty.

Brief leave of absence. A student must apply for leave to be absent or excuse for having been absent from any college exercise other than an examination to the officer of instruction in charge of such exercise; unless, for unavoidable cause, the student is obliged to absent himself from all college exercises for one day or for several days, in which case the proper dean has authority to excuse. No excuse for absence will relieve the student from completing all the work of each course to the satisfaction of the instructor in charge.
Discontinuance without notice. Students who discontinue their work without formal leave of absence do so at the risk of having their registration privileges curtailed or entirely withdrawn.

Honorable dismissal, indicating that the student, while in good standing, has voluntarily severed his connection with the University, should be sought by written petition to the proper Faculty. Without such petition no record of honorable dismissal will be made.

GENERAL INFORMATION

Living Accommodations

The cost of board and lodging (1) in boarding houses in Los Angeles is $35 to $50 a month. (2) For students living in housekeeping rooms and "boarding themselves" the expenses may be reduced as low as $20 to $25 a month, but this plan of living is not generally recommended. (3) Families or groups of mature students who wish to rent furnished houses or apartments should apply to the local real estate agents. Rents near the campus for housing eight or more persons range from $65 up, unfurnished. A two-room furnished apartment, with bath and kitchenette, janitor service, heat and house laundry, rents from $50 up.

The University has no dormitories. Lists of boarding places approved by the University authorities are published at the opening of every session. No freshman woman is permitted to complete her registration unless her boarding place is first approved by the Counsellor of Women.

Lists of approved boarding places and further advice concerning living accommodations may be obtained at the office of the Counsellor of Women, Millspaugh Hall.

Employment

Women students desiring employment should apply at the office of the Counsellor of Women, Millspaugh Hall.

Men students desiring employment should apply to Professor Mansfield, Mechanic Arts Hall.

Expenses of Students

Tuition in Academic Colleges at Berkeley and Los Angeles is free to residents of the state. Non-residents of California are charged a tuition fee of $75 each half-year.

An incidental fee of $12.50 per half-year is payable by every student before his study card is filed. This fee covers expenses of students other than the cost of their instruction and entitles them to the use of the
gymnasium, tennis courts, lockers, baths, soap, towels, washrooms, etc.; consultation, medical advice, or dispensary treatment in case of illness; and meets in part the expenses in connection with registration and graduation. This fee is not remitted in whole or in part for those who may not desire to make use of any or all of these privileges.

Physical Examinations.—Students are required to report for physical examinations at the beginning of each year.

Students who fail to meet their appointments with the medical examiner are subject to a fee of $1 for a second appointment.

Vaccination.—All students must satisfy the medical examiner concerning vaccination before entering.

Laboratory and Departmental Fees.—In the laboratories a charge is made for materials actually used. This charge, for students in the elementary laboratories, amounts to from $5 to $30 per annum.

The military uniform deposit is $27, and the military text book deposit is $3; both deposits are payable by every student subject to military training before his study card is filed. Military training is prescribed for all first and second year undergraduate male students who are citizens of the United States, able-bodied and under twenty-four years of age at admission to the University. The United States furnishes uniforms and some text books for the use of students receiving military training. The University being responsible for uniforms and text books furnished by the United States requires the student to deposit with the Comptroller an amount necessary to cover the cost of the articles issued him. The deposit is refunded at the close of the academic year, or upon the student’s withdrawal from the University, provided the student then returns in good condition all articles issued him. The amount necessary to replace articles not returned by the student will be retained by the Comptroller. The text books are loaned the student through the University Library.

Other expenses are: Gymnasium outfit for men, about $5; for women, about $8; books and stationery, from $18 to $25 per annum. All students are eligible to membership in the Associated Students of the Southern Branch of the University of California. The cost of a membership card is about $5 per year. The card entitles the holder to participation in the affairs of the Associated Students; a free subscription to the Cub Californian; free admission to all athletic contests held on the campus under the jurisdiction of the Associated Students of the Southern Branch with the exception of final intercollegiate contests.

The ordinary yearly expenses of a student in the academic departments, including personal expenses, would probably be at least $665.
The Library at Los Angeles

The Library is located in a separate building with a capacity of 50,000 volumes. The reading rooms will accommodate about 400 students.

The Library is open daily, save Sundays. From Monday to Friday, inclusive, the hours are from 7:45 a.m. to 5 p.m.; Saturday, from 8:30 a.m. to 1 p.m. The Library contains about 35,000 volumes and 8000 pamphlets. About 5000 books are added annually. The library subscribes for many of the leading periodicals, professional and general. In addition there are about 6500 bound volumes of the literary and educational magazines.

A Library Handbook, containing rules and regulations and general information regarding the library, has been issued for general distribution.

The Appointment Secretary

Upon the request of school officials the Appointment Secretary recommends teachers who, in the opinion of the faculty, are able to fill satisfactorily the positions for which teachers are being sought. To do this intelligently it is necessary that the Appointment Secretary have detailed information concerning the vacancies to be filled.

The Secretary makes every endeavor to assist graduates to secure positions of the kind for which they are best fitted. Students are urged to make occasional calls at the office of the Appointment Secretary throughout their entire course.

There is no expense to the school officials or to students for the service rendered by this office.

Summer Session

The Summer Session of six weeks is designed for teachers and other persons who are unable to attend the University during the fall and spring sessions. There are at present no formal entrance requirements, except that applicants must be persons of good moral character and must be considered by the faculty to be of sufficient maturity and intelligence to profit by attendance upon the exercises of the session. The courses of instruction are mainly of university grade, and credit toward university degrees may be given to attendants who comply with such conditions of work and examinations as may be imposed by the instructors in charge.

The tuition fee is $20, regardless of the number of courses taken.

The Announcement of the Summer Session is issued in April of each year and may be obtained by addressing the Dean of the Summer Sessions, Berkeley, California.

In addition to the session at the University in Berkeley, the Summer Session in Los Angeles has been established and will be conducted at the Southern Branch of the University.
III. ANNOUNCEMENT OF COURSES

EXPLANATORY NOTE

Professional education courses are preceded by the letter "E," and courses marked with the letter "L" are the equivalent of lower division courses at Berkeley.

Year-courses; Double Numbers. A course designated by a double number (for example, Commerce 4A-4B) is continued through two successive half-years that is, from September to June or from January to January. The student will use the first number in registering for the course during its first half-year, and the second number during its second half-year. A final report will be made by the instructor at the end of each half-year. The student may discontinue the course at the end of the first half-year, with final credit for the first half of the course.

ABBREVIATIONS

The credit value of each course in semester units is indicated for each semester by a numeral in parentheses following the title. A semester unit is one hour of the student's time at the University, weekly, during one half-year, in lecture or recitation, together with the time necessary in preparation therefor; or a longer time in laboratory or other exercises not requiring preparation. The session during which the course is given is shown as follows: I, first half-year; II, second half-year; "Yr.," throughout the year. When no hours are stated it is understood that these are to be arranged later. Further information concerning class hours will be found in the Schedule.
ART

- N. HUNTINGTON GERE, Associate Professor of Fine Arts.
- HELEN CLARK CHANDLER, Assistant Professor of Fine Arts.
- LOUISE P. SOOY, Assistant Professor of Fine Arts.
- ANNA P. BROOKS, A.B., B.S., Instructor in Fine Arts.
- BESSIE E. HAZEN, Instructor in Fine Arts.
- ANNITA DELANO, Associate in Fine Arts.
- B. KIRK SMITH, Associate in Fine Arts.
- BESSIE H. WHITCOM, Associate in Industrial Arts.
- OLIVE NEWCOMB, Associate in Industrial Arts.
- NATALIE WHITE, Associate in Industrial Arts.

FEES

Laboratory.—The fee required for courses 9, 10B, 49, 89, 98, 29A, 29B, 58A, 58B, 69A, 69B, 79A, 79B, 34A is 50 cents each; for courses 8A, 8B, 68 it is $1 each; for courses 19A, 19B, 39A, 39B it is $2 each; for course 34B it is $4.50; for course 44 it is $6.

PREPARATION FOR THE MAJOR

Required: 1A, 1B (4); 2A, 2B, 32A (6); 4A, 4B, 34B (6); 12A (2).

CHEMISTRY

WILLIAM CONGER MORGAN, Ph.D., Professor of Chemistry.
W. R. CROWELL, Ph.D., Assistant Professor of Chemistry.
G. B. ROBERTSON, Ph.D., Instructor in Chemistry.
H. W. STONE, Ph.D., Instructor in Chemistry.
Assistants in Chemistry.

Laboratory Fees.—The deposit required for courses 2A, 2B, 10, 11, is $10.00, of which the maximum amount returnable is $3.00; for courses 5, 6A, 6B, it is $17.00, of which the maximum amount returnable is $5.00; for courses 1A, 1B, it is $17.50, of which the maximum amount returnable is $5.00; for course 9, it is $28.00, of which the maximum amount returnable is $10.00.

Preparation for the Major

Required: Chemistry 1A-1B (10); Physics 1A-1B or 2A-2B (6); Mathematics 3A-3B (6); French or German.

L11A-L11B. General Chemistry. (5-5) Yr.
MORGAN and STAFF
Lectures or recitations, three hours; laboratory, six hours. Prerequisite: high school chemistry, or high school physics and trigonometry. Required for Colleges of Engineering, Chemistry, Agriculture, for pre-medical students and chemistry majors.
E2A-E2B. General Chemistry. (4-4) Yr.  
Lectures or recitations, 3 hours; laboratory, 3 hours. No prerequisites; high school chemistry recommended. This course (or L1A-L1B) is required of all home economics and physical education majors and should be elected by students desiring chemistry as a part of a liberal education.

L5. Quantitative Analysis. (3) Either semester.  
A course in gravimetric and volumetric analysis, shorter than L6A-L6B. Prerequisite: 1A-1B. Required of petroleum engineers and sanitary and municipal engineers.

L6A-L6B. Quantitative Analysis. (3-3) Yr.  
Prerequisite: 1A-1B. Required of economic geologists and College of Chemistry students.

L8A-L8B. Elementary Organic Lectures. (3-3) Yr.  
Prerequisite: 1A-1B, or 2A-2B. Required of pre-medical students, sanitary and municipal engineers, petroleum engineers, and College of Chemistry students.

L9. Elementary Organic Laboratory. (3) II.  
Prerequisite: 8A. Required of petroleum engineers, pre-medicals, and College of Chemistry students.

E10. Organic and Food Chemistry. (4) II.  
Lectures or recitations, three hours; laboratory, three hours. Prerequisite: 1A-1B or 2A-2B. Required of home economics majors.

E11. Physiological Chemistry. (4) I.  
Lectures or recitations, three hours; laboratory, three hours. Prerequisite: 8A and 9, or 10. Required of fourth-year home economics students.
CLASSICAL LANGUAGES

ARThUR PATCH MCKINLAY, Ph.D., Assistant Professor of Latin.

PREPARATION FOR THE MAJOR

Required: (Latin course) 18 units of Latin, which may be distributed as either 6, 9, or 12 units in high school and 12, 9, or 6 in college.

Recommended: as much work as may be possible in Greek, Ancient History, French or German.

Greek

- L1AB-L2AB. Beginning Greek, Attic Prose and Homer. (5-5) Yr.

- L41A-L41B. Introduction to Plato; Euthyphro, Apology, Crito, Selections from the Phaedo. (3-3) Yr.

Latin

- L6. Tacitus and Plautus. (3) II.

Prerequisite: course 2.
COMMERC— CLOYD H. MARVIN, Ph.D., Associate Professor of Commerce.  
--- C. A. LeDEUC, M.B.A., Ph.D., Assistant Professor of Accounting.  
--- MARSHALL FRANCIS MCCOMB, A.B., LL.B., Lecturer in Business Law.  
--- J. R. DOUGLAS, Ph.D., Lecturer in Administration.  
--- F. M. COUCH, Lecturer in Credits and Collections.  
--- EVA M. ALLEN, Associate in Commercial Practice.  
--- ESTELLA B. PLOUGH, Associate in Commercial Practice.  
--- E. S. NELSON, A.B., Associate in Commerce.

Fees.—A fee of $2.50 will be charged for 16A, 16B, 15A, 15B.

PREPARATION FOR THE MAJOR

Required: (Economics course) Commerce 1A—1B; History 2A—2B, 3A—3B; Political Science 1A—1B.

Required: (Secondary Teachers’ course) Commerce 1A—1B, 3, 4, 5, 11, 13, 14A—14B, 15A—15B, 16A—16B, 18A—18B, 21A—21B.

ENGLISH

- Frederic T. Blanchard, M.A., Associate Professor of English.
- Herbert F. Allen, Ph.D., Assistant Professor of English.
- Austin K. Gray, M.A., Assistant Professor of English.
- Sigurd Hustvet, Ph.D., Assistant Professor of English.
- Alice O. Hunnewell, Instructor in English.
- Evalyn Thomas, A.B., Instructor in English.
- Raymond Jenkins, Ph.D., Instructor in English.
- Margaret S. Carhart, Ph.D., Instructor in English.
- Katherine Collins, M.A., Associate in English.
- L. C. Lockley, A.B., Associate in English.

EXAMINATION IN SUBJECT A (ENGLISH COMPOSITION)

(a) All entrants (both the Junior College and the Teachers' Course students) are required to take the examination in Subject A.

(b) All students who receive grade E or grade F must continue to take the examination (at the beginning of each semester) until they have passed it. A passing grade in Subject A is prerequisite to the Junior Certificate.

(c) All students (both the Junior College and the Teachers' Course students) who receive grade C or grade D must take English 1X.

(d) Students who receive grade A or grade B may elect English 1A.

PREPARATION FOR THE MAJOR

Required for the English Course: 12 units which must include either English 1A–1B (6) or Public Speaking 1A–1B. Students who receive grade 1 in English 1X may offer English 1X-1B. (Oral English) English 3A–3B, 4A–4B.

L1X. English Composition. (3) Either semester.

Gray, Carhart, Collins

Required of all students who have received grade 3 in Subject A.
Announcement of the Southern Branch

- L1A-L1B. Advanced English Composition. (3) Either semester. 
  BLANCHARD, ALLEN, GRAY, CARHART, COLLINS

Open to all students who have received grade 1 or grade 2 in Subject A or in English 1x.

- L2A-L2b. History of English Literature. (3-3) Yr. BLANCHARD, ALLEN

- L6B. Frequent Writing. (3) Either semester. ALLEN

  For at least six weeks daily one-page themes; appointments for individual criticism. Limited to fifteen students.

- L7N. Narration. (3) I.

  For at least six weeks daily one-page themes; appointments for individual criticism. Limited to fifteen students.

- L11B. Character. (3) II.

- L17A. Shakespeare. (3) I.

- L18. The Age of Milton. (3) II.

- L21A-L21B. Nineteenth Century Poetry. (3-3) Yr. II.

  Either semester may be taken separately.

- L21C-L21D. Nineteenth Century Prose. (3-3) Yr. II.

  Either semester may be taken separately.

- L25F-L25G. The English Novel. (3-3) Yr. II.

  Either semester may be taken separately.

- L30A. American Literature. (3) I. Either semester. BLANCHARD, CARHART

- L6C. Dramatic Criticism (3) I.

  Oral English

- L2A-L2B. Elements of Public Speaking. (3-3) Yr.

- L4A-L4B. Elements of Expression and Interpretation. (3-3) Yr. Either sem.

  HUNNEWELL, THOMAS

- L5A-L5B. Principles of Argumentation (3-3) Yr.

  Prerequisite. Public Speaking IA-IB (or English IA-IB) and the consent of the instructor.

- L10A-L10B. Dramatic Interpretation. (3-3) Yr. THOMAS
Method Courses

- E10a. Primary Reading: Grades 1-3. (3) Either semester. HUNNEWELL
- E10b. Primary and Intermediary Reading: Grades 1-6. (3) Either semester. HUNNEWELL
- E12. English in the Upper Grades. (3) Either semester. HUNNEWELL
  - E15a. Children's Literature. (3) II.
  - E15b. The Art of Story Telling. (3) Either semester. HUNNEWELL
- E61. Junior High School English. (2) I.

GEOPHYSICS

- MYRTA L. McCLELLAN, B.S., Assistant Professor of Geography.
- FORD A. CARPENTER, LL.D., D.Sc., Lecturer in Meteorology.
- RUTH E. BAUGH, Associate in Geography.

PREPARATION FOR THE MAJOR

Required: Geography 1A, 1B, 1C, 2A, 2B, 2C, 2D, 3B.

- L1A. Fundamentals of Geography. (3) Either semester. BAUGH, McCLELLAN
- L1B. Elementary Meteorology. (3) II. BAUGH, McCLELLAN

GEOL0GY AND MINERALOGY

FREDERICK P. VICKERY, B.S., Instructor in Geology.

Laboratory Fees.—The deposit required for course 1A-1B is $5.

PREPARATION FOR THE MAJOR

Required: Geology 1A; Mineralogy 1A and 1B, 2AB; Physics; Chemistry.

Geology

L1A. General Geology: Dynamical and Structural. (3) Either semester.

Sections limited to thirty students each. Tuesday afternoons and four Saturdays all day. Prerequisites: Physics and Chemistry.

L1B. General Geology: Historical. (2) Either semester. Prerequisite: Geology 1A.

L2. Mineralogy

L2A-L2B. Determinative Laboratory. (4) Either semester. Prerequisite: Chemistry.

L3AB. Crystallography and Crystallographical Laboratory. (3) II.

HISTORY

FRANK J. KLINGBERG, Ph.D., Associate Professor of History.

MELVA LATHAM, A.B., Assistant Professor of History.

L. T. LOWREY, Ph.D., Assistant Professor of History.

LUCY M. GAINES, M.A., Instructor in History.

PREPARATION FOR THE MAJOR

Required: any 3-unit year course in History.

Recommended: French, or German, or Latin, or Spanish, or Italian.

L2A-L2B. History of England and Greater Britain. (2-2) Yr.

L4A-L4B. Social and Political History of Modern Europe. (3-3) Yr.
114 U.S. Hist. (3) 1

E11. Primary History. (2) Either semester.
Prerequisite: Psychology 2A.

HOME ECONOMICS

Isabel Bevier, Ph.M., D.Sc., Lecturer in Home Economics.
Bernice Allen, Instructor in Home Economics.
Agnes E. Macpherson, Associate in Home Economics.
Orabel Chilton, B.S., Associate in Home Economics.
Maud Evans, Associate in Home Economics.
Elizabeth Lathrop, Associate in Home Economics.
Florence A. Wilson, A.B., B.S., Associate in Home Economics.
Pauline Lynch, Associate in Home Economics.
Florence M. Hallam, Associate in Home Economics.

Laboratory Fees.—The fee required for courses 1A, 1B, 1C, 2, 43, 69, and 75 is $1; for courses 25, 33, 34, 47, 77, 85 it is $1.50; for courses 9A, 9B, 10, 59, 83, 84 it is $2.75; and for course 78 it is $5.

PREPARATION FOR THE MAJOR

Required: Chemistry 1A-1B, 8, 5; Biology 1.
Recommended: Biology 10; Commerce 1A-1B; Physics 2A-2B; Chemistry 9.
Announcement of the Southern Branch

Clothing and Textiles

- E1A-E1B. Elementary Clothing and Dressmaking. (3-3) Wilson
- E1C. Elementary Clothing and Dressmaking. (3) Wilson
  Taken in lieu of Home Economics 1A-1B. Prerequisite: two years' high school sewing.

- E2. The Study of Dress. (3) II. Lathrop
  Prerequisite: Home Economics 1B. Open only to home economics vocational students.

- E25. Elementary Millinery. (2) Either semester. Lathrop
- E58. Textiles. (3) II Wilson

- E75. Advanced Dressmaking. (3) Either semester Lathrop
- E77. Advanced Millinery. (3) Lathrop
- E79. Advanced Textiles. (3) I. Wilson

Food and Nutrition

- E9A-E9B. Elementary Food. (3-3) (I-II)(II) Lynch
- E9C. Elementary Food. (3) I. Lynch
  To be taken in lieu of Home Economics 9A-9B. Prerequisite: two years' high school cookery.

- E10. Family Food. (3) II. Evans
  Prerequisite: Home Economics 9A. Open only to home economics vocational students.

- E33. Elementary Dietetics. (3) II Chilton
  Prerequisite: Chemistry 10.

- E34. Elementary Dietetics. (3) Chilton-Evans
  Prerequisite: Chemistry 10. Open only to home economics vocational students.

- E59. Family Food. (3) II. Chilton
  Prerequisites: Home Economics 9A-9B, 33.

- E33. Experimental Food. (3) I. Chilton
  Prerequisite: Home Economics 59.

- E34. Lecture-Demonstration Food. (3) II Chilton
  Prerequisite: Home Economics 59.

- E85. Advanced Dietetics. (3) II Chilton
  Prerequisites: Home Economics 83 and Chemistry 11.

E 78 This is the column of 1A of 1922-23
E43. Household Administration. (3) II. MACPherson, Evans
Prerequisites: Chemistry 10 and Physics 11. Open only to home economics vocational students.

E69. Household Administration. (3) II. MACPherson, Evans
Prerequisites: Chemistry 10 and Physics 11.

Education

E24. Home Economics Education. (3) Either semester. MACPherson, Evans
For general professional and kindergarten-primary students.

E47. Home Economics Demonstration. (2) II. MACPherson
Prerequisites: two food and two clothing courses.

E49. Home Economics Education. (3) Either semester. MACPherson
Prerequisites: Home Economics 1b, 9b, and Education 11.

MATHEMATICS

GEORGE E. F. SHERWOOD, M.A., Associate Professor of Mathematics.
HARRY M. SHOWMAN, E.M., M.A., Assistant Professor of Mathematics.
MYRTE COLLIER, B.S., Assistant Professor of Mathematics.
HARRIET E. GLAZIER, M.A., Assistant Professor of Mathematics.
GUY H. HUNT, C.E., Instructor in Surveying.

Fees.—The fee required for courses 11A and 11B is $5; for course 13 there is a minimum fee of $20.

PREPARATION FOR THE MAJOR

Required (Mathematics course): Mathematics 3A, 1, 5, 6, 9.
Recommended: Physics, Astronomy, French.

L1. Advanced Algebra. (3) Either semester. GLAZIER, COLLIER, HUNT
Prerequisites: Elementary Algebra and Geometry.

Prerequisite: course 1 or its equivalent.
L3A-L3B. Plane Analytic Geometry and Differential Calculus. (3-3) Yr. SHERWOOD
Prerequisites: Plane and Solid Geometry, Plane Trigonometry and
at least one and one-half years of Algebra.

L3B-4A. Differential and Integral Calculus. (6) Yr. SHERWOOD, SHOWMAN
For students in engineering, beginning calculus in the second year.

L4A-L4B. Solid Analytic Geometry and Integral Calculus. (3-3) Yr. SHERWOOD, SHOWMAN
Prerequisite: course 3A-3B.

L5. Analytic Geometry. (5) I. GLAZIER
Prerequisites: courses C and I.

L6. Introduction to Projective Geometry. (3) Either semester SHERWOOD

L7. Astronomy. (3) II. LEONARD

L8. Surveyor's Course in Spherical Trigonometry and Astronomy. (1) II. SHERWOOD, SHOWMAN
Prerequisites: Plane Trigonometry, Solid Geometry and course C. E. 11A, and registration in C. E. 11B, or by permission of the instructors.

Method Courses.

E10. Arithmetic. (3) Either semester. COLLIERS, GLAZIER
Prerequisite: Psychology 2A.

E10A. Primary Number. (3) Either semester. COLLIERS

E12. Business Mathematics. (2) I. HUNT

E62. Junior High School Mathematics. (2) II. COLLIERS, GLAZIER

E64. Modern Geometry. (3) I. SHERWOOD
MECHANIC ARTS

- HAROLD W. MANSFIELD, Assistant Professor of Mechanic Arts.
- JOHN B. PHILLIPS, Associate in Mechanic Arts.
- JAMES W. MARSH, Associate in Mechanic Arts.
- FOSS B. BROCKWAY, Associate in Mechanic Arts.
- ADRIAN D. KELLER, Associate in Mechanic Arts.

Elementary machine shop practice.

E76a-E76b. Shop Work. (3-3) Yr.

Advanced shop practice.

MILITARY SCIENCE AND TACTICS

GUY G. PALMER, Colonel, U. S. Army (Retired), Associate Professor of Military Science and Tactics.

JOHN E. CREED, Major, U. S. A., Assistant Professor of Military Science and Tactics.

W. G. BINGHAM, Captain, U. S. Army, Assistant Professor of Military Science and Tactics.

The courses in military training are those prescribed by the War Department for infantry units of the senior division of the Reserve Officers' Training Corps. The United States furnishes arms, equipment, uniforms, and some text books for the use of students belonging to such units. The University being responsible for text books and uniforms furnished by the United States requires the student to deposit with the Comptroller $30 to cover the cost of the text books and uniforms issued him. This deposit must be made before the student files his study list; the deposit is refunded at the close of the academic year or upon the student's withdrawal, provided the student then returns in good condition all articles issued him. An amount necessary to replace articles not returned by the student will be retained by the Comptroller.

Students who are members of the National Guard or of the U. S. Naval Reserve Force are authorized to wear their guard or naval uniform in their military training at the University, and, upon application to the Supply Officer at the Military Science Building, may be excused from paying the deposit for uniform. Such students will pay a deposit of $3 to cover cost of text books issued them.
LOWER DIVISION COURSES

The lower division or basic courses are prescribed for all first-year and second-year undergraduate male students who are citizens of the United States, able-bodied and under twenty-four years of age at the time of admission to the University. A first-year or second-year student claiming exemption because of non-citizenship, physical disability, or age will present to the Department of Military Science and Tactics a petition, on the prescribed form, for such exemption. Pending action on his petition the student will enroll in the courses prescribed for his year and enter upon the work of such courses. The advanced course, Senior Division, is provided at the University of California, Berkeley, and coincides with the academic junior and senior years. Upon graduation and satisfactory completion of the advanced course those students recommended by the head of the institution and the professor of military science and tactics are commissioned Second Lieutenants in the Officers' Reserve Corps.

- L1A–L1B. Basic Military Training (First Year). (1½-1½) Yr.
  - PALMER

- L2A–L2B. Basic Military Training (Second Year). (1½-1½) Yr.

  - Elementary technique.
- E15a–E15b. Piano. (3-3) Yr.
- E65a–E65b. Piano. (2-2) Yr.
  - Advanced piano literature.

Appreciation Courses
- L3a–L3b. Music Literature. (3-3) Yr.
- E63a–E63b. Music Literature. (2-2) Yr.

Theory Courses
- L4a–L4b. Harmony. (3-3) Yr.
- E8a–E8b. Music Education. (3-3) Yr.
  - Nature of music; relation of harmony, melody.
- E55a–E55b. Composition. (3-3) Yr.
- E60a–E60b. Advanced Composition and Orchestration. (2-2) Yr.
- E64a–E64b. Form and Analysis. (2-2) Yr.
  - Designs of the simple and compound forms; methods of structural treatment.

Method Courses
- E10a. Teachers' Course in Music. (2) Either semester.
- E21a–E21b. Music Observation. (1-1) Yr.
  - Elementary school teaching.
- E59a–E59b. Conducting. (2-2) Yr.
  - Secondary school teaching.
PHYSICAL EDUCATION FOR MEN

-FREDERICK W. COZENS, M.A., Assistant Professor of Physical Education.
- A. W. DOWDEN, A.B., Associate in Physical Education for Men.
- HARRY TROTTER, Assistant in Physical Education.
- WILLIAM J. NORRIS, M.D., Physician for Men.

PREPARATION FOR THE MAJOR

Required: Physical Education 1AB, 7AB, 8AB, 10BD; Chemistry 1A; Biology 1A.

PRELIMINARY STATEMENT

Gymnasium Suit Fee.—All male students unless excused from physical education by formal petition are required to pay a gymnasium suit fee of $5 at the time of registration. This fee entitles the student to the use of a regulation gymnasium costume during his University course. Tennis shoes must be furnished by the individual and may be obtained at club prices by applying to the book store. The University provides for the laundry of suits.

Medical Examination.—All students entering the University or returning are required to pass a medical examination. Men showing abnormality of bodily conformation or physical defects of any sort are classed as “special” and are given individual work and advice based upon the data of the medical and physical examinations.

Physical Tests.—Male students in the Junior College taking required physical education must pass a series of practical physical tests (see announcement on bulletin board in the Men's Gymnasium). Intrants are classified for their prescribed work on the basis of physical efficiency, determined through tests of health, strength, endurance, agility, ability to swim and skill in self-defense. Men qualified for the athletic division may take regular work in any type of sport offered. Men failing so to qualify but not found defective in any essentials of health or bodily conformation will be assigned to work adapted to their special needs. The aim of the department is to promote men as quickly as possible into the athletic division.

Requirements.—Junior College men are required to take two hours per week for four semesters (1/2 unit credit per semester). Teachers' course men take two hours per week of practice work for two semesters, two hours per week of recreation for four semesters, and two hours per week of theory for one semester (see courses 21AB, 22AB, and 16ABCD).
Announcement of the Southern Branch

Majors in the Teachers’ Course.—Men whose major is physical education should consult the suggested schedules for Physical Education under the heading Teachers’ Curricula in this announcement. Professional courses in the Department of Physical Education for Women are open to men. The chairman of the department should be consulted before registration.

Notices concerning all phases of the work of the department will be posted on the bulletin board of the Men’s Gymnasium and must be read carefully by all. Men will be held strictly accountable for all regulations so posted.

Note concerning courses offered: The letters A and B after course numbers denote the work of the first and second semesters of the freshman year. The same holds true for the letters C and D in the sophomore year.

L1ABCD. Gymnastics. (1/2) Either semester.
L2ABCD. Special Gymnastics. (1/2) Either semester.

- LILLIAN RAY TITCOMB, M.D., Physician for Women.
- RUBY I. McLEAN, R.N., Nurse.

WOMEN'S ATHLETIC ASSOCIATION

The Women's Athletic Association co-operates with the Department of Physical Education in promoting a high physical efficiency among the women of the University by encouraging many forms of physical activities. The association supplements the work of the department by organizing school teams and arranging for contests in the following sports:

Fall season: field hockey, swimming, tennis, golf.
Winter season: basket-ball, indoor baseball.
Spring season: outdoor baseball, field and track, swimming, archery.
Dancing is offered throughout the year.

Announcement of the Southern Branch
PHYSICS

John Mead Adams, Ph.D., Associate Professor of Physics.
L. E. Dodd, Ph.D., Assistant Professor of Physics.
A. H. Warner, A.B., B.S., Associate in Physics.
Leo Delsassé, Assistant in Physics.

Laboratory Fees.—The deposit required for each course consisting wholly or in part of laboratory work is $4 per semester.

PREPARATION FOR THE MAJOR

Required: Physics 1A–1B, 4A–4B, or 2A–2B, 3C–3D; Mathematics 3A–3B; Chemistry 1A–1B.
Recommended: French.

L1A–L1B. General Physics. (3–3) Yr. Adams
Mechanics, sound and heat.

L2A–L2B. General Physics. (3–3) Yr. Dodd
Mechanics, sound, heat, light, electricity. Prescribed for pre-medical and agricultural students and open to other students who are taking course 3A–3B.

L3A–L3B. Physical Measurements. (1–1) Yr. Dodd
Prescribed for pre-medical students and open to other students who are taking course 2A–2B.

L4A–L4B. General Physics. (3–3) Yr. Adams
Light and electricity. Prescribed for students in engineering and chemistry.
Announcement of the Southern Branch

Electrodynamics. (3) II.
Open to students who have had physics 4A and Mathematics 4A.

Applications of Physics in the Household. (3) I.
Prescribed for students in Home Economics.

POLITICAL SCIENCE
- C. E. MARTIN, Ph.D., Assistant Professor of Government.

L1A—L1B. Government. (3-3) Yr.
L2. Principles and Problems of Politics. (3) I.
L3A—L3B. International Law. (3-3) Yr.

L8. American Government. (3) II.
L12. State Government. (3) II.

PRACTICE TEACHING
- CHARLES W. WADDLE, Ph.D., Professor of Education in charge of Training.
- ETHEL I. SALISBURY, M.A., Associate Professor of Elementary Education.
- ETHEL B. WARING, M.A., Assistant Professor of Education.
- BERTHA E. WELLS, Assistant Supervisor of Practice Teaching.
- MARGARET M. CAMPBELL, B.S., Teacher in charge of Ninth Grade.
- KATHERINE KAHLEY, A.B., Teacher in charge of Eighth Grade.
- MABEL C. JACKSON, A.B., Teacher in charge of Seventh Grade.
- EMMA J. ROBINSON, Teacher in charge of Sixth Grade.
- LULU M. STEDMAN, Teacher in charge of Fifth Grade.
- KATHERINE SPIERS, B.L., Teacher in charge of Fourth Grade.
- EDITH HOPE RINGER, Teacher in charge of Third Grade.
- EDITH WALLOP, Teacher in charge of Second Grade.
- ETHEL BRITTO, Teacher in charge of First Grade.
- ADELAIDE ADAMS SAMUELS, Teacher in charge of Sub-Primary Class.
- BARBARA GREENWOOD, Teacher in charge of the Kindergarten.
- MARY E. DOUGLASS, M.A., Assistant Teacher in the Kindergarten.
- MADELINE CROWELL, Training Teacher in charge of Home Economics.
- HELEN B. KELLEY, Supervisor of Adjustment Room.
- FLORENCE M. HALLAM, A.B., Associate in Home Economics.
- BLANCHE SELLS, Teacher of Physical Education.
- MRS. A. G. W. CERV, Teacher of French.
- ALICE HUBARD, Teacher of Spanish.
THE TRAINING SCHOOL

The University Training School comprises a kindergarten, the six elementary grades, and the three years (7-9) of the junior high school. Pupils are admitted upon the same terms as to Los Angeles city schools. The school furnishes a thorough elementary and junior high school education.

An opportunity room affords to children of superior ability a chance to complete the work of the middle grades in less than the usual time with a fuller and richer curriculum than that of the ordinary grades. An adjustment room is also maintained in which children of the middle grades, who from one cause or another, are in need of special individual help in certain subjects receive such individual assistance as may be found necessary to put them on their feet educationally so that they may complete the work of a grade in which they might otherwise fail.

PRACTICE TEACHING

Ten semester hours of practice teaching are required of all candidates for the Elementary Teachers' Certificate except those who may be partially credited on account of teaching experience. No student is recommended for this certificate without having satisfactorily completed at least five semester hours of practice teaching in one of the training schools.

All students, except those who enter with second year standing, must have had a required course in the subject or subjects they are to teach before receiving the first assignment and must have reached full second year standing. Teaching 10A (five hours) is regularly taken in the first semester of the second year; teaching 10B (five hours) in the last semester of the course. Elective teaching (teaching 20, hours by individual arrangement) is offered to those who desire or who need additional training.

Secondary practice teaching is provided for in the high schools of Los Angeles city, under the supervision of the special departments of the Southern Branch of the University of California.

In addition to regular grade work, opportunities for elective teaching are afforded in the adjustment room, in Americanization classes in Los Angeles day and evening schools, in playground work, garden classes, etc.

Weekly conferences under the direction of training teachers and supervisors are required in connection with each teaching assignment in the training schools.

* In addition to the University Training School, portions of two Los Angeles city schools are utilized as supplementary training schools. In 1920-21 the Grand Avenue School and the Thirty-sixth Street School were so used. Some students are given the opportunity to do cadet teaching in other city schools under the supervision of the regular teachers and that of an Assistant Supervisor of Training from the University.
Announcement of the Southern Branch

A high standard of work is required of students in teaching. Those who are unable to attain a reasonably high standard may be denied recommendation for certification. Students who do not possess the qualifications necessary for a high quality of service are advised, as soon as this can be discovered, to turn their attention to some other line of work.

Assemblies

All candidates for teachers' certificates are required to attend a series of assemblies during the last semester preceding the completion of any teachers' course. These assemblies have to do with the student's relationship to the institution, to the Appointment Secretary, to public school officials by whom they are to be employed, and with other matters of importance to prospective teachers. These assemblies are in charge of the Supervisor of Training.

Practice Teaching Courses

I. Kindergarten-Primary Teaching

K10A. Kindergarten-Primary Teaching. (5) Either semester.
K10B. Kindergarten-Primary Teaching. (5) Either semester.
K20. Elective Kindergarten-Primary Teaching. (Hours to be arranged.)

II. Elementary Grade Teaching

E10A. Elementary Grade Teaching. (5) Either semester.
E10B. Elementary Grade Teaching. (5) Either semester.
E20. Elective Elementary Grade Teaching. (Hours to be arranged.)

III. Junior High School Teaching

J21. Elective Junior High School Teaching. (Hours to be arranged.)

IV. Fine and Industrial Arts Teaching

A10A. Elementary Fine Arts Teaching. (3) Either semester.
A10B. Elementary Fine Arts Teaching. (3) Either semester.
A10C. Elementary Industrial Arts Teaching. (3) Either semester.
A10D. Elementary Industrial Arts Teaching. (3) Either semester.
✓ A20A. Elective Elementary Fine Arts Teaching. (Hours to be arranged.)
✓ A20B. Elective Elementary Industrial Arts Teaching. (Hours to be arranged.)
✓ A60A. Secondary Fine Arts Teaching. (3) Either semester.
✓ A60B. Secondary Fine Arts Teaching. (3) Either semester.
✓ A60C. Secondary Industrial Arts Teaching. (3) Either semester.
✓ A60D. Secondary Industrial Arts Teaching. (3) Either semester.
✓ A70A. Elective Secondary Fine Arts Teaching. (Hours to be arranged.)
✓ A70C. Elective Secondary Industrial Arts Teaching. (Hours to be arranged.)

V. Commerce Teaching
✓ C21. Elective Junior High School Teaching in Commerce. (Hours to be arranged.)
✓ C60A. Secondary Teaching in Commerce. (5) Either semester.
✓ C60B. Secondary Teaching in Commerce. (5) Either semester.

VI. Home Economics Teaching
✓ H10A. Elementary Home Economics Teaching. (2) Either semester.
✓ H10B. Elementary Home Economics Teaching. (2) Either semester.
✓ H11A. Junior High School Teaching in Home Economics. (2) Either semester.
✓ H11B. Junior High School Home Economics Teaching. (2) Either semester.
✓ H20. Elective Elementary Home Economics Teaching. (Hours to be arranged.)
✓ H60A. Secondary Home Economics Teaching. (2) Either semester.
✓ H60B. Secondary Home Economics Teaching. (2) Either semester.
✓ H70. Elective Secondary Home Economics Teaching. (Hours to be arranged.)

VII. Mechanic Arts Teaching
✓ MA11A. Junior High School Mechanic Arts Teaching. (5) Either semester.
MA20. Elective Elementary Mechanic Arts Teaching. (Hours to be arranged.)

MA60A. Secondary Mechanic Arts Teaching. (5) Either semester.

MA60B. Secondary Mechanic Arts Teaching. (5) Either semester.

MA70. Elective Secondary Mechanic Arts Teaching. (Hours to be arranged.)

VIII. Music Teaching

M11A. Junior High School Music Teaching. (2) Either semester.

M11B. Junior High School Music Teaching. (2) Either semester.

M20. Elective Elementary Music Teaching. (Hours to be arranged.)

M60A. Secondary Music Teaching. (5) Either semester.

M60B. Secondary Music Teaching. (5) Either semester.

M70. Elective Secondary Music Teaching. (Hours to be arranged.)

IX. Physical Education Teaching

P10A. Elementary Physical Education Teaching. (2) Either semester.

P10B. Elementary Physical Education Teaching. (2) Either semester.

P11A. Junior High School Physical Education Teaching. (2) Either semester.

P20. Elementary Physical Education Teaching. (Hours to be arranged.)

P60A. Secondary Physical Education Teaching. (2) Either semester.

P60B. Secondary Physical Education Teaching. (2) Either semester.

P70. Elective Secondary Physical Education Teaching. (Hours to be arranged.)

PSYCHOLOGY

- Grace M. Fernald, Ph.D., Associate Professor of Psychology.
- S. Carolyn Fisher, Ph.D., Assistant Professor of Psychology.
- Nellie B. Sullivan, A.B., Instructor in Psychology.

LX. The Psychology of Study. (1) Required during the first term of attendance of all students except those of advanced standing.

L2A. Introductory Psychology. (3) Either semester.
132

University of California

- L2b. Genetic Psychology. (3) Either semester. 
  Prerequisite: Psychology 2A.

- E70. Psychology of Elementary School Subjects. (3) 
  Prerequisite: Psychology 2B.

- E76a-E76b. Introductory Experimental Psychology. (3-3) 
  Prerequisite: Psychology 2A.

- E77. Clinical Psychology. (3) 
  Prerequisite: Psychology 2B. This course alternates with Psychology 70, thus giving a year's course in advanced psychology.

ROMANIC LANGUAGES

- H. R. Brush, Ph.D., Associate Professor of Romance Languages.
- María López de Lowther, B.S., Lecturer in Spanish.
- F. E. Beckman, Ph.D., Associate in French and Spanish.
- Anna Krause, A.B., Associate in Spanish.
- Madeleine Letessier, Associate in French.

PREPARATION FOR THE MAJOR

Required: 16 to 19 units in lower division courses.
Recommended: (French) Latin, Greek, English, Philosophy 4A; (Spanish) Latin, History 8A-8B, English.

French

- LA-LB. Elementary French. (5-5) Either sem.

- LC-LD. Intermediate French. (3-3) Either sem.

Spanish

- L5a-L5b. Advanced Spanish. (3-3) Yr.

- E6b. Spanish in Business Practice. (2-2) Yr.

- L53 AB. Modern Spanish Novels. (3) Yr.
CIRCULARS OF INFORMATION—(Continued)

For the following, apply to the proper Dean or Registrar:
The Circular of the California School of Fine Arts, in San Francisco.
The Annual Announcements of the Hastings College of the Law, the
Medical School, the College of Dentistry, and the California Col-
lege of Pharmacy, in San Francisco; the Los Angeles Medical
Department, in Los Angeles.

For the following, apply to the Dean of the College of Agriculture,
Berkeley, California.
The Prospectus of the College of Agriculture.
The Announcement of Courses in Forestry.
The Annual Announcement of Farmers' Short Courses.
The Annual Report of the College of Agriculture and the Agricultural
Experiment Station.
The Bulletins and Circulares of the Agricultural Experiment Station.

A circular containing detailed information concerning the scientific
publications of the University, with prices, will be sent on application to
the Manager of the University of California Press. The separate num-
bers of the several series appear at irregular intervals, making, however,
uniform volumes.

Other publications of the University Press are:
The University of California Chronicle. A quarterly publication
intended to serve as an official record of University life. It contains
articles and addresses by members of the Faculty and by others on topics
of interest to the University public, as well as a summary of current
University happenings. Price, $1 a year.

The University of California Calendar. A weekly bulletin of official
University announcements, containing also notices of meetings, lectures,
concerts, and other University activities. Price, 25 cents a half-year,
postpaid.

Subscriptions and orders for the Chronicle and Calendar should be
addressed to the Manager of the University of California Press, Berkeley,
California.
UNIVERSITY OF CALIFORNIA BULLETIN
Southern Branch

A SERIES IN THE ADMINISTRATIVE BULLETINS
OF THE UNIVERSITY OF CALIFORNIA

Issued quarterly in July, October, January, and April

(Application for entry as second class mail now pending.)
